## » 2022

- 2022 **Extension** of the product portfolio to sensors with LoRaWAN® interface
- 2021 **Relaunch** thermokon.de and direct.thermokon.de becoming one
- 2020 **Establishing** a further SMD assembly line in Mittenaar-Bicken
- 2019 **Launch** of the new room sensors and operating units – **NOVOS**
- 2017 **Company Anniversary** 30 Years Thermokon Sensortechnik GmbH
- 2016 **Premiere** of the new and innovative enclosure „USE“
- 2015 **Launch** of the new design room operating unit „JOY“
- 2015 **Launch** of the solar-powered room operating unit SR06 LCD
- 2015 **Investment** into a new SMD assembly line
- 2015 **Establishing** Thermokon Sensor Technology Nederland B.V., Netherlands
- 2014 **Establishing** Thermokon Norge AS, Norway
- 2013 **New Company Headquarters** in Mittenaar-Offenbach
- 2013 **Establishing** Thermokon Sensortechnik Switzerland AG
- 2012 **A reason to celebrate:** 25 Years Thermokon Sensortechnik GmbH
- 2011 **Establishing** Thermokon Automation Equipment Co. Ltd., China
- 2011 **Launch of the** high-end touch room operating unit thanos

## » 2010

- 2009 **Extension** of the product portfolio to sensors with BACnet interface
- 2007 **Further extension** of the company building by 600 m<sup>2</sup>
- 2005 **Extension** of the product portfolio to sensors with Modbus interface
- 2004 **Launch** of the innovative wireless sensor system EasySens®
- 2002 **Launch** of the surface mounted room operating unit WRF04
- 2002 **Establishing** Thermokon-Danelko Elektronik AB, Sweden
- 2002 **Anniversary** 15 Years Thermokon Sensortechnik GmbH
- 2000 **Further extension** of the company building to 2.000 m<sup>2</sup>

## » 2000

- 1998 **Establishing** Thermokon Components GmbH, Austria
- 1997 **Extension** of the company building in in Mittenaar-Bicken
- 1995 **First production** of humidity sensors
- 1995 **Extension** of the product portfolio to sensors with LON interface
- 1995 **First production** of mixed gas and brightness sensors
- 1995 **Launch** of a quality management system according to DIN EN ISO 9001
- 1994 **New company building** in Mittenaar-Bicken

## » 1990

- 1987 **Development and production** of temperature sensors for the heating industry
- 1987 **Company foundation** of Thermokon Sensortechnik GmbH by Harald Zygan

## OUR WEBSITE – YOUR ADVANTAGE!

In addition to our new catalogue, we launch our new website with an extended range of functions. In order to give you an even better user experience, we have integrated the functionality of ThermokonDIRECT into our main page – you can now find all products and items directly on the main page. Use the convenient filter function and get the right item for your application in the blink of an eye.

The practical project management function allows you to quickly and conveniently select your required items at any time. Further you can order all items directly once you have registered and are eligible to order online\*. Registering different billing and delivery addresses offers you enormous flexibility in order placement and saves you time in daily business.

### » Your advantages:

- » Portfolio with more than 5000 online items
- » Project management for a flexible planning
- » Intelligent search via predefined filters or free text (e.g. item number or description)
- » Download of item-specific data sheets and media (BIM files, pictures, software, declarations of conformity, etc.)
- » Comparison function of multiple items or products

### Additional functions for existing corporate customers:

- » Online ordering possibility (24/7)\*
- » Online package tracking\*
- » View list and net prices\*

**REGISTER NOW:**

[www.thermokon.com](http://www.thermokon.com)

\* The additional functions will be activated after checking eligibility

## FROM A SINGLE PRODUCT TO A SYSTEM SOLUTION

### » ENERGY-EFFICIENT HIGH-TECH PRODUCTS

What started with the foundation of Thermokon Sensortechnik GmbH by Harald Zygan in 1987 has evolved to a success story quickly: The initial specialization on temperature sensors for the boiler industry was soon followed by an extension of the portfolio to sensor solutions for detection of relative humidity, air quality and brightness. Those products laid the foundation for energy-efficient products within our systems and solutions.

Nowadays, we are contributing actively to the sustainability of buildings as well as the reduction of CO2 emissions. When developing our high-tech products we pay especially attention to a lean and plug & play design so that our systems are "easy to install". Of course, a time and cost-saving configuration is considered as well.

### » CONTINUOUS GROWTH

Our growth to a Global Player involves a consequent optimization of our headquarters and included a new building in Mittenaar-Bicken in 1994. This building was continuously extended in the following years. In 2014 we moved our headquarters to a new location in Mittenaar-Offenbach.

A generous construction, latest technologies and ideal production conditions give us the flexibility and creativity for the development and production of advanced sensor solutions.

## OUR EXPERTISE – YOUR SUCCESS

For more than 35 years, Thermokon is recognized worldwide for leveraging standards in intelligent buildings with engineering, innovation and quality "Made in Germany". Thanks to the development and production of sophisticated sensors and sensor systems we are creating an additional benefit for our customers all over the world. We focus on efficiency, sustainability and openness to new fields of technology as well as a close cooperation and thorough dialogue with our clients.

As a leader for innovation with a broad scope of applications we are continuously developing our portfolio further and offer decisive benefits with regards to product-related values, customised solutions and engineering. Our complete range of products is designed to energy-efficient buildings.

### FROM MITTENAAR ACROSS THE GLOBE

Trend-setting sensors and sensor systems are developed and produced at our headquarters in Mittenaar-Offenbach with currently 230 employees. Besides our core values – safety, openness to new technologies and sustainability as well as our daily motivation striving for excellence in sensors, we established an own R&D department, an in-house test laboratory, a climatic chamber as well as an own SMD assembly line for our PCBs.

In addition, our finished goods warehouse ensures our delivery ability at any time. The responsible handling of resources in all corporate sectors is self-evident.

### REPRESENTED IN MORE THAN 80 COUNTRIES

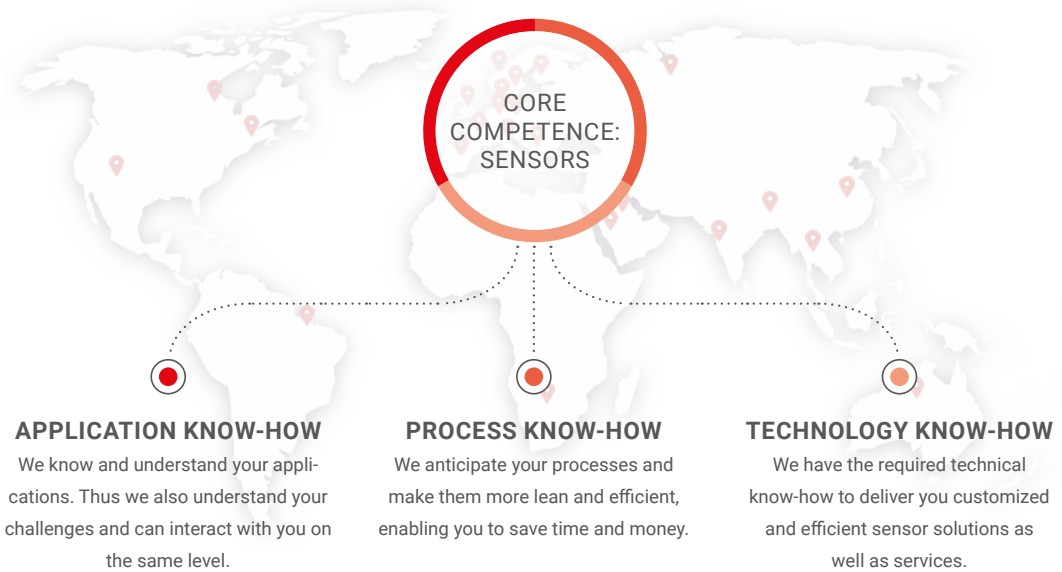

Our clients are manufacturers, system integrators, controller companies and strategic distributors in the HVAC industry and building automation. Our products and systems are exported all over the world.

A local support and presence is guaranteed by branches in Austria, Sweden, China, Switzerland, Finland and the Netherlands as well as a sales agency in Russia. Due to a complementary cooperation with distributors in many parts of the world our product portfolio is available in more than 80 countries.

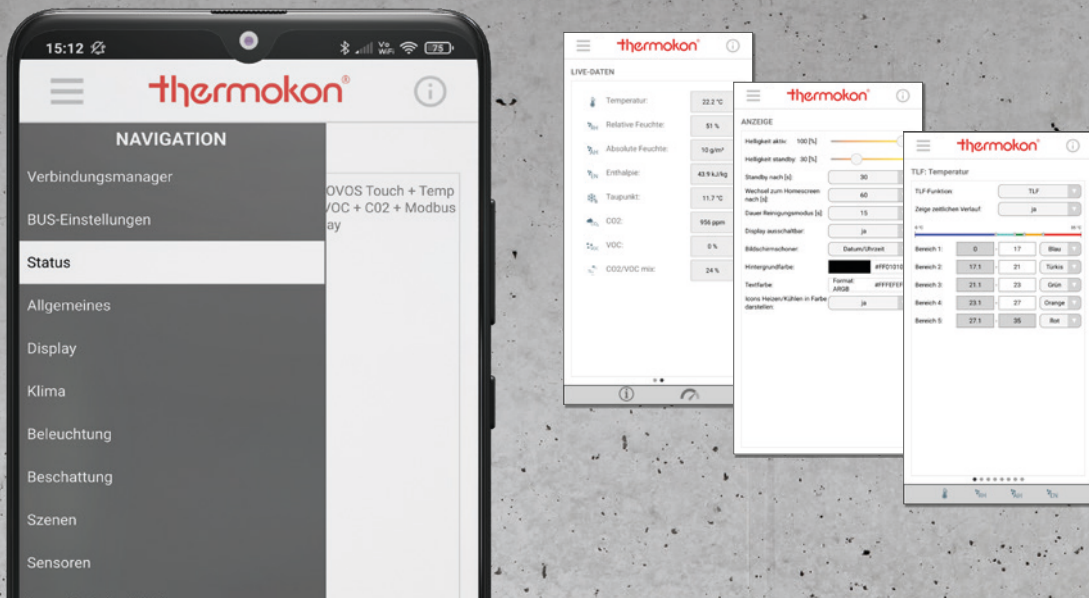

## FOR A SUSTAINABLE AND ECONOMICAL PARTNERSHIP

As the "Home of Sensor Technology" for building automation and HVAC Thermokon offers the essential knowledge to combine quality with efficiency to create customers' benefit by innovative solutions. Your success is guaranteed by our expertise. Thanks to well-engineered and high-grade products, a 5-year warranty with accommodating exceptions and pro-

active initiation of new innovations, you can rely on us at any time. Efficiency is an additional strength. We offer an excellent cost-performance ratio which pays off in terms of quality and service. Comprehensive sensor solutions are offered from a single source.

## THERMOKON® APPS – FOR INDIVIDUAL CONFIGURATION

All "USEapp" and "NOVOSapp" based products are supplied with a fully functional standard configuration for direct mounting/ installation.

Via the app it is feasible to extend the range of use and to adapt the configuration individually to application requirements.

### » USEapp / NOVOSapp – HIGHLIGHTS AND FEATURES

- » Communication via Bluetooth® Low-Energy-Module (BLE)
- » For use on mobile terminals (Android and iOS)
- » Individual configuration of output signals
- » Setting of different measuring ranges
- » Additional adjustment of offset values
- » Parameterization of Live-Zero-Signal (1..10 V etc.)
- » Setting options for display indications
- » Customized parameterization of traffic-light function (TLF)
- » Setting of relay performance and thresholds
- » Modbus address offset (extension)
- » Possibility of firmware updates on-the-go (OTG)
- » Adjustment of maintenance intervals

## JOY CUSTOM – FUNCTIONAL INDIVIDUALISM

With the **JOY Custom\*** you will get an individual room controller, that is optimally adapted to your requirements and desires. In addition to the classic functionality for controlling the setpoint temperature and adjusting fan speeds, our customized variants have four (JOY Fancoil) or six (JOY HC) additional, freely configurable buttons. Possible areas of application for the additional

buttons would be e.g. switching lighting or controlling blinds or shades – the choice is yours! Graphical and customizable icons for the respective buttons as well as the possibility of having your own logo lasered into the real glass surface make the JOY Custom a unique user experience.

JOY Fancoil Custom with four customizable touch buttons

JOY HC Custom with six customizable touch buttons

### » ADVANTAGES AND HIGHLIGHTS

- » Elegant, flat design – high-quality finishing
- » Flexibility due to different versions and master OFF button
- » Available with EasySens® EnOcean wireless interface transmitting instantaneous telegrams at the touch of a button
- » Demand-optimised control by setting up different user profiles
- » Bidirectional controls using BACnet or Modbus through a BMS system is possible
- » **Now available with an integrated relative humidity sensor**

## INSPIRATIONS

JOY Fancoil Custom

JOY HC Custom

\* Minimum order quantity 100 pieces

## LoRaWAN® – LONG RANGE WIDE AREA NETWORK

Long Range Wide Area Network – short LoRaWAN®\* – is a radio technology that is capable of transmitting data over a long distance and even from remote and hard-to-reach locations in an energy-efficient, cost-effective and secure manner. Due to the low energy consumption, the batteries of the sensors are extremely durable and can last for several years.

LoRaWAN® uses the so-called ISM frequency band around 868 MHz in Europe, for which no licence fees and no cellular costs are incurred. LoRaWAN® is heavily involved in the development of so-called „smart cities“. In Germany for example, cities and municipalities in particular are building a sustainable and process-optimised infrastructure for building security and monitoring or controlling street lighting.

In Switzerland, France and the Netherlands, telecommunications providers operate a nationwide network of gateways. In addition to the public networks, companies can also set up their own networks (private networks).

### » ADVANTAGES

- » Defined standard of the LoRa Alliance® with a broad ecosystem of members, products and world-wide references of active networks
- » Location-independent access to all measured values through the Cloud
- » Interference-resistant radio frequency range sub 1 GHz
- » Configuring the device from virtually everywhere (Remote Configuration)
- » Wide range of applications indoors and outdoors

Thermokon® is an official member of the LoRa Alliance®

## LoRa Alliance® Member

### » LONG DISTANCES

LoRa® provides long radio transmission ranges and a thorough signal penetration.

### » OPEN STANDARD

Guaranteed high security and interoperability due to LoRaWAN® network protocol.

### » HIGH ENERGY EFFICIENCY

Intelligent LoRaWAN® sensors reach up to 10 years lifetime battery-operated.

### » BIDIRECTIONAL COMMUNICATION

LoRaWAN® enables bidirectional communication between sensors and network servers.

*\*LoRaWAN® is a registered trademark of the LoRa Alliance®*

» **STEP 1 – SENSOR:**  
Sensor value acquisition and bidirectional transmission

» **STEP 2 – GATEWAY:**  
Receiving and forwarding data

**SYSTEM ARCHITECTURE:**  
**CLOUD**

» **STEP 3 – NETWORK SERVER (CLOUD):**  
Network management and data routing

» **STEP 4 – APPLICATION SERVER:**  
Data processing through IoT platforms, e.g. visualisation (Datacake, etc.)

**SYSTEM ARCHITECTURE:**  
**BMS**

*Network server  
integrated in gateway*

» **STEP 3 – BUILDING MANAGEMENT SYSTEM (BMS):**  
Integration into building management systems e.g. via BACnet IP, Modbus TCP/IP, ...

# EasySens<sup>®</sup>

The Self-Powered, Intelligent Wireless System

## THE SELF-POWERED INTELLIGENT WIRELESS SYSTEM

The use of innovative technology makes it possible: The wireless EnOcean based system EasySens<sup>®</sup> enables a networked building automation – self-powered, intelligent and

maintenance-free. Thus, EasySens<sup>®</sup> offers best possible flexibility for realizing individual requirements in new buildings and refurbishments.

### » ADVANTAGES

- » Cost saving thanks to Energy Harvesting  
Energy generation through motion, light and temperature
- » Flexibility with sensor location – quick and easy mounting and commissioning
- » Reduction of fire load
- » Easy, wireless integration in existing buildings as well as retrofit adaptations to changed room layouts
- » Direct mounting to representative measuring points
- » Compatibility different manufacturers by using international standards (IEC 14543-3-10)
- » **airConfig:**  
Convenient parameterization of the devices using special remote commissioning commands
- » **airScan:**  
Field strength measuring system for evaluation and ideal placement of transmitters and receivers

TRANSMITTERS

RECEIVERS  
(TRANSCIEVER)

TOOLBOX

INTEROPERABLE  
SYSTEM INTEGRATION

## airConfig – COMMISSIONING MADE EASY!

The use of EnOcean RF telegrams and the airScan USB transceiver make it possible: airConfig enables comfortable parameterization of your EasySens® devices by means of special remote commissioning commands.

No more direct interaction and tiresome accessing of devices in buildings. Benefit by a significant time-saving. Thus, the communication of your devices is guaranteed.

### » ADVANTAGES

- » Simple seamlessly learning-in, configuration and deletion of devices via RF technology
- » Adjustment of configuration parameters – e.g. waking-up cycles or measuring ranges – in the device settings
- » Transparent and central availability of relevant system information
- » Uncomplicated handling of maintenance and support works
- » Configuration of measured values (EEP) and sensor parameters
- » Learning-in of sensors via Drag and Drop (Remote Management)
- » Saving time resources (configuration via Copy and Paste)
- » Remote access to product and project information
- » Structured product presentation thanks to device ID
- » Change of product configurations even at inaccessible mounting places
- » Change of specifications and parameterization on-site or via remote access
- » Password protected configuration of actuators
- » Identification via visual and acoustic feedback

## airScan – MEASURING AND MONITORING

You would like to plan and realize EasySens projects simply? Then airScan, the field strength measuring instrument of Thermokon, is the right tool for you: The traffic light indication (RSSI) displays the signal strengths received and shows reliably the

optimal mounting place for transmitters and receivers. Even in daily use the work with airScan cannot be easier. On the well-structured surface all telegrams received are clearly listed and allocated to the corresponding product.

### » ADVANTAGES

- » Find the best location for your device
- » Monitoring function for easy evaluation of radio frequency telegrams
- » Logging, repeater function and possibility of remote maintenance
- » Data export in CSV-, XML- or XLS data formats
- » Generation and transmission of EnOcean telegrams
- » Status detection of product ID, field strength and manufacturers of integrated products
- » Full support of EEP2.6.3. standards
- » Taking-over of desired EnOcean profile from a pre-defined EEP selection
- » Definition of telegram content via input fields
- » Easy and fast generation and transmission of telegrams
- » Translation of various available measuring values
- » Reliable information on signal quality or RSSI value of telegrams by colour indicator (traffic light system) or graphs
- » Detailed evaluation of telegrams (data bytes, RSSI value, sub-telegrams etc.)
- » Decoding of measuring values
- » Background saving of received telegrams
- » Possibility of data export as well as automated forwarding to a FTP server or an e-mail account

## 5 YEARS WARRANTY

### » LASTING RELIABILITY

Due to high quality and durability of our products we offer a 5-year warranty from date of production for all products produced as of 01.01.2014.

You are interested in details? Please visit:

[www.thermokon.de/en-gb/highlights/5-years-warranty](http://www.thermokon.de/en-gb/highlights/5-years-warranty)

## SI-PROTECTION

### » FOR NON-CORRODING SENSORS

If the ambient temperature fluctuates around dew-point, condensatation might appear. For your sensors condensate can have unpleasant consequences: Humidity penetrates into the soldering point of the sensor, the sensor oxidizes and begins to corrode. Thus, the measuring result becomes unreliable. SI-Protection offers you a safe protection against corrosion damages, vibrations and measuring inaccuracies.

The contact points of the sensors are first coated with epoxy resin and with a casting compound afterwards. Due to the permanent connection with the insulation material of the wire a closed unit is established protecting the sensor reliably against vibration and humidity. This effect is additionally supported by the rolled pocket.

SI-Protection

16-point pressed  
(protection class IP65)

rolled  
(protection class IP67)

# EasySens®

Innovative self-powered wireless technology generates energy by means of harvesting ambient light or motion. Interoperable, cost-effective and energy-efficient solutions in building automation are available using our wireless sensor system EasySens®.

## JOY SR Fancoil

Fancoil thermostat with EnOcean radio interface in high-quality design for individual singleroom temperature- and fan control. A glass surface with intuitive touch control buttons and display combine design, feel and functionality in an outstanding way. The internal controller of the JOY calculates control values for fans and heating/cooling applications, which are provided via analog or digital outputs (depending on type). The integrated EnOcean interface also allows the control of a second heating circuit (e.g. using a radiator valve). The integration of various external sensors (e.g. window contacts, change-over, condensation sensors, etc.) is possible through a hard-wired connection or the EnOcean interface. These sensors enable temperature- and fan control tailored to the application. The device can be mounted in a standard flush-mounted box.

**NEW:** With additional, customizable touch buttons (see page 12)

Outputs	5DO (230 V)	EC AO2DO (230 V)	EC 3AO (24 V)
Fan (Relay)	3	–	–
EC Fan (0..10 V)	–	1	1
Heating/Cooling (Relay)	2	2	–
Heating/Cooling (0..10 V)	–	–	2

## SR06 LCD

Energy-harvesting wireless room operating unit with an integrated LCD for the measurement of temperature and relative humidity (rH version). Depending on the type, temperature set point, fan stages, room occupancy, lighting or blinds can be controlled using the operating buttons on the device. The device transmits its measured values to corresponding receivers or gateways, which directly process the information or - depending on the application - forward it to a BMS controller. Using the SmartACK protocol, the bidirectional communication is capable of managing a local overwrite from BMS of e.g. set point, fan stages and room occupancy. The SR06 LCD can be wirelessly parameterized by using the airConfig software or alternatively through the optional USB programming interface. Although the SR06 LCD is a self-powered device, the energy capacitor of the device can also be charged via USB interface if required. It can be integrated into almost any 55x55 mm frames, allowing you to choose from many designs and frame manufacturers. The SR06 LCD is mounted by using the adhesive pad or screws.

## SR07 x

Energy-harvesting wireless room operating unit for the measurement of temperature and relative humidity (rH version) in living and office spaces. Also available with set point potentiometer, slide switch (for example ‚Day/Night‘) or occupancy button. The device transmits its values unidirectionally to receiving actuators or gateways, which process the information directly or – depending on the application – forward it to a BMS controller. It can be integrated into almost any 55x55 mm frames, allowing you to choose from many designs and frame manufacturers. The SR07 x is mounted by using the adhesive pad or screws.

## NOVOS 3 SR x

Energy-harvesting wireless room operating unit in the NOVOS design for the integrated measurement of temperature and relative humidity (rH version) in living and office spaces as well as controls through operating elements such as set point and occupancy button. The device is mounted using the adhesive pad or screws included and transmits its values unidirectionally to EasySens® receiving actuators or gateways, which process the information directly or – depending on the application – forward it to a BMS controller.

## NOVOS 3 SR

Energy-harvesting wireless room sensor in the NOVOS design for measuring temperature in residential and commercial buildings. Mounted directly on the wall using the adhesive pad or screws included, the NOVOS 3 SR Temp transmits its measured values to EasySens® receiving actuators or gateways, which process the information directly or – depending on the application – forward it to a BMS controller.

NOVOS 3 SR

NOVOS 3 SR CO2

### Technical Data

Measured values	temperature, relative humidity, CO2
Configuration	DIP switches
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Output signal temperature	scaling according EEP, 0..+40 °C
Measuring range humidity	0..100% rH non-condensing
Measuring range CO2	0..2000 ppm, 0..5000 ppm, optionally configurable
Power supply	solar cell, maintenance-free internal super cap use of back-up battery possible for insufficiently lit environments, battery ER14505 (3,6 V)
Enclosure	PC V0
Colour	pure white, aluminium, black <b>Temp / Temp_rH:</b> design cover alu or black available (please specify colour when ordering)
Operating range temperature	0..+40 °C
Protection (IP)	IP20, according to EN 60529
Mounting	surface-mounted flat on base using adhesive foil or screws
Delivery content	incl. adhesive foil for mounting

## SR04 CO2

Wireless room sensor for measuring CO2, temperature and optionally relative humidity in residential and commercial buildings. Mounted directly on the wall using the adhesive pad or screws included, the NOVOS 3 SR Temp transmits its measured values to EasySens® receiving actuators or gateways, which process the information directly or – depending on the application – forward it to a BMS controller.

### Technical Data

Measured values	temperature, relative humidity, CO2
Configuration	jumper
Sensor	NDIR (non-dispersive, infrared)
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Output signal temperature	scaling according EEP, 0..+51 °C
Measuring range humidity	0..100% rH non-condensing
Measuring range CO2	0..2550 ppm
Power supply	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
Power consumption	max. 1,6 W (24 V =), 3,6 VA (24 V ~)
Display	LCD 29x12 mm, monochrome 3 LEDs for displaying air quality (traffic light function – TLF)
Enclosure	PC
Colour	pure white
Operating range temperature	0..+50 °C
Protection (IP)	IP30, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> cable entry via rear opening, predetermined breaking point (bottom und top)
Mounting	flush-mounted on standard EU box (Ø=60 mm), surface-mounted flat on base using adhesive foil or screws
Delivery content	incl. adhesive foil for mounting
Notes	to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz) (refer to accessories)

## SR65

Energy-harvesting wireless sensor for measuring temperature in outdoor areas or industrial environments (for example in cold stores, production halls and warehouses). The airConfig software can be used to parameterize the SR65 to customized measurement ranges, transmission intervals and wake-up times. When used in dark places (e.g. server rooms), a backup battery can be inserted.

SR65 Temp

SR65 Temp\_rH

### Technical Data

<b>Measured values</b>	temperature, relative humidity
<b>Configuration</b>	airConfig
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Output signal temperature</b>	scaling according EEP, -20..+60 °C, optionally configurable
<b>Measuring range humidity</b>	0..100% rH non-condensing
<b>Power supply</b>	solar cell, maintenance-free internal super cap, use of back-up battery possible for insufficiently lit environments, battery LS14250 (3,6 V)
<b>Material in touch with media</b>	<b>Temp:</b> Sensor probe: Ø=6 mm, stainless steel V4A (1.4571) <b>rH:</b> Pipe: Ø=19 mm, PC, length 50 mm, with filter stainless steel wire mesh
<b>Enclosure</b>	PA6.6, with quick lock screws
<b>Colour</b>	pure white, transparent cover
<b>Operating range temperature</b>	-25..+65 °C
<b>Protection (IP)</b>	IP65, according to EN 60529
<b>Notes</b>	to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz) (refer to accessories)

## SR-MDS

The SR-MDS is a radio multi-sensor to measure light levels and detect motion. The SR-MDS is typically ceiling-mounted and powered by 24 V so as to permit reliable operations in rooms with low light levels (e.g. basements).

### Technical Data

Measured values	temperature, luminosity, motion
Configuration	jumper
Sensor	PIR (passive infrared) detection range: 360 °, Ø=5 m at a sensor height of approx. 2,5 m
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Output signal temperature	scaling according EEP, 0..+51 °C
Measuring range light	0..510 lux
Power supply	flex. 15..240 V =/~, battery LS14250 (3,6 V), (3x)
Power consumption	typ. 0,8 W (24 V =), 1,2 VA (24 V ~)
Enclosure	ABS
Colour	pure white
Operating range temperature	-10..+50 °C
Protection (IP)	IP20, according to EN 60529
Connection	removable terminal block, max. 2,5 mm <sup>2</sup>
Notes	designed for constant light control applications

### Wireless ceiling sensor light + motion (+ temperature)

Item description	Item No.	Group	€
SR-MDS	396486	ES2	252,40
SR-MDS BAT	396462	ES2	252,40

### Accessories

Item description	Item No.	Group	€
Battery LS14250	315098	AS1	4,55
Enclosure for surface mounting SR-MDS pure white	514439	AS1	53,30
Mounting ring for hollow ceiling with retaining clips to be used with SR-MDS	627825	AS1	7,25

## SR-MDS Solar

Energy-harvesting wireless radio multi-sensor to measure light levels and detect motion. The SR-MDS Solar can be integrated into compatible receiving actuators or gateways.

Technical Data	
Measured values	luminosity, motion
Configuration	airConfig
Sensor	PIR (passive infrared) detection range: 102 °x92 °, Ø=5 m at a sensor height of approx. 2,8 m
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
Measuring range light	0..510 lux (default setting) 0..1000 lux (10 bit) 0..1020 lux optionally configurable
Power supply	solar cell, maintenance-free internal super cap use of back-up battery possible for insufficiently lit environments: battery LS14250 (3,6 V)
Enclosure	PC, ABS
Colour	pure white
Operating range temperature	0..50 °C
Protection (IP)	IP20, according to EN 60529
Mounting	surface-mounted flat on base using adhesive foil or screws
Delivery content	incl. fixing kit rawplugs and screws (2x each)
Notes	to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz)

## SR-MOC Solar

Energy-harvesting wireless ceiling-mounted sensor for motion detection and integration into EasySens® receiving actuators or gateways.

### Technical Data

Measured values	motion
Configuration	buttons
Sensor	PIR (passive infrared) detection range: 360 °, Ø=5 m at a sensor height of approx. 2,5 m
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Power supply	solar cell, maintenance-free internal super cap use of back-up battery possible for insufficiently lit environments, coin cell CR2032 terminal for external power supply 3..5 V =
Enclosure	PC
Colour	white
Operating range temperature	-10..+40 °C
Protection (IP)	IP50, according to EN 60529
Mounting	surface-mounted flat on base using included adhesive pad or screws

## SR-MOW Solar

Energy-harvesting wireless wall-mounted sensor for motion detection and integration into EasySens® receiving actuators or gateways.

Technical Data	
Measured values	motion
Configuration	buttons
Sensor	PIR (passive infrared) detection range: with wide angle lens up to 15 m, with field lens up to 30 m when mounted at height 2,10 m
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Power supply	solar cell, maintenance-free internal super cap use of back-up battery possible for insufficiently lit environments, coin cell CR2032 terminal for external power supply 3..5 V =
Enclosure	PC
Colour	white
Operating range temperature	-10..+40 °C
Protection (IP)	IP20, according to EN 60529
Mounting	surface-mounted flat on base using included adhesive pad or screws

## SR65 Li

Energy-harvesting wireless light sensor for constant light control applications, saving energy by lowering the artificial light. The SR65 Li can furthermore be configured individually via airConfig.

### Technical Data

<b>Measured values</b>	luminosity
<b>Configuration</b>	airConfig
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz
<b>Measuring range light</b>	0..510 lux 0..1000 lux (10 bit) 0..1020 lux 300..30.000 lux (default setting) 600..60.000 lux
<b>Power supply</b>	solar cell, maintenance-free internal super cap use of back-up battery possible for insufficiently lit environments, battery LS14250 (3,6 V)
<b>Enclosure</b>	PA6.6, with quick lock screws
<b>Colour</b>	pure white, transparent cover
<b>Operating range temperature</b>	-20..+70 °C
<b>Protection (IP)</b>	IP65, according to EN 60529

### Wireless outdoor sensor luminosity

Item description	Item No.	Group	€
SR65 Li	598354	ES2	185,80

### Accessories

Item description	Item No.	Group	€
Battery LS14250	315098	AS1	4,55
EnOcean USB transceiver for airConfig/airScan (incl. airScan license)	566704	NET	111,20

## SR-MI

EasySens® metering interface for wireless radio transmission of pulse signals for gas, water, electric and BTU meters with an S0 interface.

### Technical Data

<b>Configuration</b>	DIP switches
<b>Input</b>	3x S0-interface
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 0,2 W (24 V =), 0,4 VA (24 V ~)
<b>Enclosure</b>	ABS
<b>Colour</b>	light grey
<b>Operating range temperature</b>	0..+50 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	terminal block, max. 1,5 mm <sup>2</sup>
<b>Delivery content</b>	incl. external transmitting antenna with magnetic base

### Wireless module

Item description	Item No.	Group	€
SR-MI	471428	ES2	187,30

### Accessories

Item description	Item No.	Group	€
Antenna extension 10 m	257206	AS1	62,00
Antenna extension 20 m	257213	AS1	75,40
L-shaped magnetic antenna holder, 180x180 mm	255097	AS1	15,90

## SR65-3AI

The SR65-3AI has 3x 0..10 V inputs. The inputs can be wirelessly transmitted with the SR65-3AI to an EasySens® receiving actuator or can be integrated through gateways into existing BUS networks.

### Technical Data

<b>Configuration</b>	jumper
<b>Input</b>	3x analogue input, 0..10 V
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Power supply</b>	15..24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV
<b>Power consumption</b>	typ. 0,2 W (24 V =), 0,4 VA (24 V ~)
<b>Enclosure</b>	PA6.6, with quick lock screws
<b>Colour</b>	pure white, transparent cover
<b>Operating range temperature</b>	-25..+65 °C
<b>Protection (IP)</b>	IP65, according to EN 60529
<b>Connection</b>	cable entry M16 for wire $\varnothing=8$ mm, plug-in terminal, max. 1,5 mm <sup>2</sup>

### Wireless module

## SR65-DI

The SR65 DI is a wireless transmitter for the binary status of relay inputs. The status of the digital input is transmitted through radio to corresponding remote controllers in the EnOcean network or can be transferred through a gateway to any BUS network. It is often used as a push signal for night-time temperature reduction of heating controllers or ECO/comfort switching.

Technical Data	
Configuration	airConfig
Input	1x input for floating contact, contact resistance max. 1000 Ω
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
Power supply	solar cell, maintenance-free internal super cap, battery LS14250 (3,6 V)
Enclosure	PA6.6, with quick lock screws
Colour	pure white, transparent cover
Operating range temperature	-25..+65 °C
Protection (IP)	IP65, according to EN 60529
Connection	cable entry M16 for wire Ø=8 mm, terminal block, max. 1,5 mm <sup>2</sup>
Delivery content	incl. battery LS14250 (3,6 V)
Notes	to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz) (refer to accessories)

## SRG02

Battery- and wireless window handle for status monitoring of windows (lock option available) with radio interface. When actuated, the handle transmits a radio signal with the handle position to a receiving actuator or gateway. The window handle is used to optimize energy consumption in the building, as heating/cooling or ventilation gets deactivated when windows are open. Equipped with a variable length square spindle for profile depths of 32..42 mm for most common window frames.

## STC65+ RS485 Modbus

Bidirectional gateway with RS485 Modbus interface for integration of up to 32 EasySens® devices. Freely programmable 32 channels allow for a bidirectional communication with 32 addresses (registers) and SAB+/SAB05 wireless valve actuators for example. The STC65+ RS485 Modbus includes an ext. transmitting/receiving antenna (2.5 m).

Technical Data	
<b>Configuration</b>	Software/Plug-In for configuration, BUS, jumper, DIP switches
<b>Network technology</b>	RS485 Modbus
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Data transmission</b>	bidirectional, transmitting/receiving channels: 32 (Rx) + 32 (Tx) + 32 (VA)
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 0,8 W (24 V =), 2 VA (24 V ~)
<b>Enclosure</b>	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
<b>Colour</b>	pure white, transparent cover
<b>Operating range temperature</b>	-20..+60 °C
<b>Protection (IP)</b>	IP65, according to EN 60529
<b>Connection</b>	removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm, plug-in terminal, max. 1,5 mm²
<b>Mounting</b>	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
<b>Delivery content</b>	incl. mounting base enclosure USE-M pure white incl. mounting set (screws and accessories) incl. external receiving/transmitting antenna (2,5 m) with magnetic base
<b>Notes</b>	to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz), communication with up to 15 SmartACK devices, magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories)

## STC65-FTT LON

Bidirectional gateway for connecting up to 11 EasySens® sensors and transmitters to controllers and control systems with LON interface. With predefined sensor objects (sensor, switch, ...) and corresponding output variables (SNVT) for communication in a LON network. Especially designed to upgrade existing LON installations with wireless technologies for increased energy savings.

Technical Data	
<b>Configuration</b>	Software/Plug-In for configuration, BUS
<b>Network technology</b>	LON FT (free topology)
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Data transmission</b>	bidirectional, transmitting/receiving channels: 11 (Rx) + 11 (Tx)
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV

L-shaped magnetic antenna holder, 180x180 mm	255097	AS1	15,90
Fixing kit rawlplugs and screws (2x each)	660945	AS1	0,95

## STC-BACnet IP

The STC-BACnet IP gateway is designed for bidirectional communication between EasySens® devices and building management systems with a BACnet IP interface. Configuration can be easily performed with the EasySens® airConfig software tool. Details of the communication protocol are described in the software documentation accordingly. The delivery content includes an external antenna for achieving best transmission ranges.

### Technical Data

<b>Configuration</b>	airConfig, BUS
<b>Network technology</b>	BACnet IP
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Data transmission</b>	bidirectional, transmitting/receiving channels: ∞ (Rx) + 128 (Tx)
<b>Power supply</b>	24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 3 W (24 V =), 5 VA (24 V ~)
<b>Enclosure</b>	ABS
<b>Colour</b>	light grey
<b>Operating range temperature</b>	0..+50 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	terminal block, max. 1,5 mm <sup>2</sup>
<b>Mounting</b>	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
<b>Delivery content</b>	incl. external receiving/transmitting antenna (2,5 m) with magnetic base
<b>Notes</b>	to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz) for network connection use a shielded standard Ethernet cable CAT 5 magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories)

### STC-BACnet IP – Gateway EnOcean <-> BUS

Item description	Item No.	Group	€

## SRC65-BACnet MS/TP

The unidirectional SRC65-BACnet MS/TP gateway allows the reception of information from EasySens® sensors, switches, room units and other transmitters. Details of the communication protocol are described in the software documentation accordingly. The delivery content includes an external antenna for achieving best transmission ranges.

Technical Data	
<b>Configuration</b>	BUS, jumper, DIP switches
<b>Network technology</b>	RS485 BACnet (MS/TP)
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Data transmission</b>	unidirectional, receiving channels: 32 (Rx)
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 1 W (24 V =), 1,3 VA (24 V ~)
<b>Enclosure</b>	PA6.6, with quick lock screws
<b>Colour</b>	pure white, transparent cover PC
<b>Operating range temperature</b>	-20..+60 °C
<b>Protection (IP)</b>	IP42, according to EN 60529
<b>Connection</b>	terminal block, max. 1,5 mm <sup>2</sup>
<b>Delivery content</b>	incl. external receiving/transmitting antenna (2,5 m) with magnetic base
<b>Notes</b>	magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories)

## STC-4IoT

The STC-EnOcean IP gateway allows for an easy integration of EasySens® sensors and actuators into the Internet of Things (IoT). The new EnOcean-over-IP gateway communicates JSON streams or RestAPI command lines. The seamless commissioning and configuration can be done through any browser interface. The graphical dataflow-oriented processing of the EnOcean information can be performed by the integrated free Node-RED editor (<https://nodered.org/>) and enables simple, rule-based processing of information. It can further be used to send push notifications via SMS/e-Mail, if values exceed thresholds (additional required hardware not included). EasySens® devices can be integrated very easily into cloud-based applications. Compatible with IP-based controllers and display systems.

### Technical Data

<b>Configuration</b>	web interface
<b>Network technology</b>	TCP/IP
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Data transmission</b>	unidirectional, receiving channels: ∞ (Rx)
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 3 W (24 V =), 5 VA (24 V ~)
<b>Enclosure</b>	ABS
<b>Colour</b>	light grey
<b>Operating range temperature</b>	0..+50 °C

## STC-KNX

Bidirectional gateway for connecting up to 32 EasySens® sensors or wireless switches to a KNX network. The device offers additional logical control blocks, which can be configured for: switching and dimming lights, blinds up/down, presence, set point adjustment, fan stages, humidity sensor, window contact/handle, binary input, light and motion.

Technical Data	
Configuration	BUS, ETS (KNX)
Network technology	KNX (TP1)
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
Data transmission	bidirectional, transmitting/receiving channels: 32 (Rx) + 32 (Tx)
Power supply	supply via BUS: 29 V = SELV
Power consumption	max. 12 mA
Display	graphic display monochrome (internal)
Enclosure	PC
Colour	white
Operating range temperature	-5..+45 °C
Protection (IP)	IP20, according to EN 60529
Connection	removable plug-in terminal, max. Ø=0,8 mm cable entry via rear opening
Mounting	flush-mounted on standard EU box (Ø=60 mm)
Notes	product database (freeware via download)

### STC-KNX – Gateway EnOcean <-> BUS

STC-KNX	698948	ES1	408,10

## STC-KNX UP

Flush-mounted bidirectional gateway for EasySens® sensors to integrate into a KNX network with a maximum of 8 channels. The STC-KNX UP offers logical control blocks, which can be configured for: switching and dimming lights, blinds up/down, presence, set point adjustment, fan stages, humidity sensor, window handle/contact, binary input, light and motion.

### Technical Data

<b>Configuration</b>	BUS, ETS (KNX)
<b>Network technology</b>	KNX (TP1)
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz
<b>Data transmission</b>	bidirectional, transmitting/receiving channels: 8 (Rx) + 8 (Tx)
<b>Power supply</b>	supply via BUS: 29 V = SELV
<b>Power consumption</b>	max. 12 mA
<b>Enclosure</b>	ABS
<b>Colour</b>	blue
<b>Operating range temperature</b>	-5..+45 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	removable plug-in terminal, max. Ø=0,8 mm
<b>Mounting</b>	flush-mounted in standard EU box (Ø=60 mm)
<b>Notes</b>	product database (freeware via download)

### Gateway EnOcean <-> BUS

Item description	Item No.	Group	€
STC-KNX UP	725132	ES1	300,70

## STC-dS

Bidirectional gateway for extending a digitalSTROM system with EasySens® wireless devices like sensors, room units, valve actuators, switches, window contacts and window handles. These devices can be easily connected to an existing digitalSTROM network.

Technical Data	
Configuration	web interface
Network technology	digitalSTROM
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Power supply	external power supply (USB micro), 5 V =, 1 A
Power consumption	typ. 3,2 W (5 V =)
Enclosure	PC, ABS
Colour	white
Operating range temperature	0..+50 °C
Protection (IP)	IP20, according to EN 60529
Connection	USB micro (power supply) RJ45 socket (8P8C) 10/100 MBit/s Ethernet
Connection cable	patch cable, RJ45 plug
Delivery content	incl. external power supply incl. external receiving/transmitting antenna (2,5 m) with magnetic base
Notes	magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories)

Gateway EnOcean <-> BUS			
Item description	Item No.	Group	€

## STC-dS HS

Bidirectional gateway for extending a digitalSTROM system with EasySens® wireless devices like sensors, room units, valve actuators, switches, window contacts and window handles, designed to be mounted on DIN rail TS35 (35x7,5 mm) in accordance with EN 60715. The wireless devices can be seamlessly integrated and used like standard digitalSTROM components.

### Technical Data

<b>Configuration</b>	web interface
<b>Network technology</b>	digitalSTROM
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 3 W (24 V =), 5 VA (24 V ~)
<b>Enclosure</b>	ABS
<b>Colour</b>	light grey
<b>Operating range temperature</b>	0..+50 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	removable plug-in terminal, max. 2,5 mm <sup>2</sup> RJ45 socket (8P8C) 10/100 MBit/s Ethernet
<b>Connection cable</b>	patch cable, RJ45 plug
<b>Mounting</b>	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
<b>Delivery content</b>	incl. external receiving/transmitting antenna (2,5 m) with magnetic base
<b>Notes</b>	magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories)

## STC-DO

Bidirectional flush-mounted receiving actuator for EasySens® devices with one relay output. Functions/applications can be individually configured via airConfig software for e.g. heating with PWM, heating ON/OFF, signal contact, status feedback, hygrostat control, heating/cooling with PWM, light ON/OFF or fan speed control. The STC-DO is a universal relay actuator that can be configured through airConfig depending on the application.

### Technical Data

<b>Configuration</b>	airConfig
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz
<b>Power supply</b>	15..24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV, 100..240 V ~
<b>Power consumption</b>	typ. 1,5 W (24 V =), 3,4 VA (24 V ~), typ. 0,5 VA (230 V ~)
<b>Enclosure</b>	ABS
<b>Colour</b>	red
<b>Operating range temperature</b>	-20..+60 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	terminal block, max. 1,5 mm <sup>2</sup>
<b>Mounting</b>	flush-mounted in standard EU box ( $\varnothing=60$ mm)

### Radio multi-function actuator

## STC-DO Light

Bidirectional flush-mounted receiving actuator using EnOcean switch telegrams for lighting applications (e.g. light on/off, staircase function, twilight switch, etc.). The functions can be parameterised via a programming button.

### Technical Data

<b>Configuration</b>	buttons
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz
<b>Power supply</b>	100..240 V ~
<b>Power consumption</b>	max. 0,5 mW (standby)
<b>Enclosure</b>	ABS
<b>Colour</b>	red
<b>Operating range temperature</b>	-20..+40 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	plug-in terminal, max. 1,5 mm <sup>2</sup>
<b>Mounting</b>	flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)

### Radio lighting actuator

Item description	Item No.	Group	€
STC-DO Light 230 V	568371	ES2	153,90

## STC-DO Blind

Bidirectional flush-mounted receiving actuator for blind applications compatible with EasySens® wireless switches and room operating units. The functions can be parameterised via programming button.

### Technical Data

<b>Configuration</b>	buttons
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz
<b>Power supply</b>	100..240 V ~
<b>Power consumption</b>	max. 0,5 mW (standby)
<b>Enclosure</b>	ABS
<b>Colour</b>	red
<b>Operating range temperature</b>	-20..+40 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	plug-in terminal, max. 1,5 mm <sup>2</sup>
<b>Mounting</b>	flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)

### Radio shading actuator

Item description	Item No.	Group	€
STC-DO Blind 230 V	568364	ES2	153,90

## SRC-AO Climate

Unidirectional flush-mounted receiving actuator for room temperature control of proportional heating or cooling valves (type V with 1x 0..10 V), proportional heating and cooling valves (type VV with 2x 0..10 V) or 6-way valves (type 6WV).

### Technical Data

<b>Configuration</b>	buttons
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 1 W (24 V =), 1,2 VA (24 V ~)
<b>Enclosure</b>	ABS
<b>Colour</b>	red
<b>Operating range temperature</b>	-20..+60 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Connection</b>	terminal block, max. 1,5 mm <sup>2</sup>
<b>Mounting</b>	flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)
<b>Notes</b>	up to 32 devices can be learned in, per channel 1 room operating unit + 1 input module for night-time reduction + up to 10 window contacts or window handles can be learned in

### Radio climate actuator

Item description	Contr.	Item No.	Group	€
SRC-AO Climate V	✓	508278	ES2	153,50
SRC-AO Climate 6WV	✓	530255	ES2	153,50
SRC-AO Climate VV	✓	508285	ES2	179,90

## SRC-AO Dim

Unidirectional flush-mounted receiving actuator for dimming up to two 1..10 V or 0..10 V dimming actuators and electronic ballasts (ECGs) through EasySens® wireless switches. The SRC-AO DIM can accommodate up to 32 EasySens® wireless switches.

### Technical Data

<b>Configuration</b>	buttons
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Power supply</b>	15..24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV
<b>Power consumption</b>	typ. 1 W (24 V =), 1,2 VA (24 V ~)
<b>Enclosure</b>	ABS
<b>Colour</b>	red
<b>Operating range temperature</b>	-20..+60 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Mounting</b>	flush-mounted in standard EU box ( $\varnothing=60$ mm, depth min. 45 mm)
<b>Notes</b>	up to 32 devices can be learned in

### Radio dimming actuator

Item description	Item No.	Group	€
SRC-AO Dim V	499606	ES2	153,90
SRC-AO Dim VV	502931	ES2	179,90

## SRC-AO Multi

Unidirectional flush-mounted receiving actuator with two proportional 0..10 V outputs for converting EasySens® wireless sensors such as temperature, temperature setpoint, humidity, etc. into 0..10 V signals.

### Technical Data

Configuration	buttons
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
Power supply	15..24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV
Power consumption	typ. 1 W (24 V =), 1,2 VA (24 V ~)
Enclosure	ABS
Colour	red
Operating range temperature	-20..+60 °C
Protection (IP)	IP20, according to EN 60529
Mounting	flush-mounted in standard EU box ( $\varnothing=60$ mm, depth min. 45 mm)
Notes	per channel 1 transmitter can be learned in

### Radio multi actuator

Item description	Item No.	Group	€
SRC-AO Multi V	508315	ES2	153,90
SRC-AO Multi VV	508322	ES2	179,90

## STC-D08

Bidirectional receiving actuator for (DIN) rail mounting with 8 relay outputs (expandable up to 12 relay outputs using the ,STC-PLUS 4DO' expansion module) for the evaluation of EnOcean sensors, switches and room operating units. Suitable for heating/cooling control, fan coil control, light switching, shutter and blind control. The delivery content includes an external antenna for achieving best possible transmission range.

### Technical Data

Configuration	buttons
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Power supply	18..24 V = SELV, 24 V ~ (±10%) SELV 100..240 V ~
Power consumption	typ. 2 W (24 V =), 3,5 VA (24 V ~) 3,5 VA
Display	LCD 37,5x31,6 mm
Enclosure	ABS
Colour	light grey
Operating range temperature	0..+60 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup>
Mounting	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
Delivery content	incl. external receiving/transmitting antenna (2,5 m) with magnetic base
Notes	magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories) for inductive and/or capacitive loads, a suitable protective circuit must be provided (varistor, RC element, inrush current limitation, ...)

## SRC-ADO

Unidirectional receiving actuator for (DIN) rail mounting with 4 analogue outputs 0..10 V and 2 (max. 4) potential-free relay outputs. For connecting EasySens® sensors, wireless switches, room operating units and wireless window contacts or window handles. Depending on the application, the device can be parameterized via software to control a fan coil unit with change-over, a PI controller for heating/cooling or 1..10 V dimmers or work as an interface between EasySens® wireless sensors and a BMS controller (overwrite wirelessly). The delivery content includes an external antenna for achieving best possible transmission range.

Technical Data	
Configuration	Software/Plug-In for configuration
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
Power supply	15..24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV, 100..240 V ~
Power consumption	typ. 3,5 W (24 V =), 6,5 VA (24 V ~), max. 5 VA (230 V ~)
Display	4 LEDs showing status of the device, 6 LEDs showing status of the device
Enclosure	ABS
Colour	light grey
Operating range temperature	0..+60 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup>
Mounting	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
Delivery content	incl. external receiving/transmitting antenna (2,5 m) with magnetic base
Notes	magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories) for inductive and/or capacitive loads, a suitable protective circuit must be provided (varistor, RC element, inrush current limitation, ...)

## STC-MSG Server

The STC-MSG server is used for stand-alone solutions in combination with EasySens® room operating units and up to 8 or 16 SAB+/SAB05 radio valve actuators. An integrated scheduler can be individually set up as well as window contacts/handles can be learned in for increased energy savings. The parameterization of individual functions can be conducted through an integrated configuration menu using the display and respective buttons. The delivery content includes an external antenna for achieving best possible transmission range.

### Technical Data

<b>Configuration</b>	buttons
<b>Radio technology</b>	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
<b>Power supply</b>	100..240 V ~
<b>Power consumption</b>	3,5 VA
<b>Display</b>	graphic display monochrome
<b>Enclosure</b>	ABS
<b>Colour</b>	light grey
<b>Operating range temperature</b>	0..+50 °C
<b>Protection (IP)</b>	IP20, according to EN 60529
<b>Mounting</b>	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
<b>Delivery content</b>	incl. external receiving/transmitting antenna (2,5 m) with magnetic base
<b>Notes</b>	per channel 1 SAB + 1 room operating unit + 10 digital input modules, switches or presence detectors + 20 window contacts or window handles can be learned in, magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories)

## STC-MSG Server UP

The STC-MSG Server UP is used for stand-alone solutions in combination with EasySens® room operating units and up to 5 SAB+/SAB05 radio valve actuators. It is possible to use the 'energy lock' function by teaching-in wireless window contacts and window handles so that when a window is open, the SAB closes the valve and saves heating/cooling energy. The following number of sensors can be connected: 5 EasySens® valve actuators (SABx), 1 room unit e.g. NOVOS 3 SR x, SR06 LCD x or SR07 x, 10 digital input modules SR65 DI, EasySens® switches, EasySens® presence detectors (e.g. SR-MDS, SR-MOW), 20 window contacts SRW or window handles SRG.

### Technical Data

Configuration	airConfig
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
Power supply	100..240 V ~, ,
Power consumption	typ. 0,5 VA (230 V ~)
Enclosure	ABS
Colour	red
Operating range temperature	-20..+60 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup>
Mounting	flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)

### Notes

to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz)  
5 SAB + 1 room operating unit + 10 digital input modules + 20 window contacts or window handles can be learned in

## SAB+

Self-powered wireless EasySens® valve actuator for individual room temperature control. The new electronic heating valve actuator uses the temperature difference between the radiator and ambient room temperature to generate electrical energy by means of a thermo-electric generator. Sufficient energy can be stored in the integrated high-performance capacitor to ensure reliable operation even during periods of insufficient energy management (summer months, transition period between seasons). Adapters are available for numerous valve manufacturers.

### Technical Data

Measured values	temperature
Configuration	airConfig
Sensor	integrated digital temperature transmitter
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz
Power supply	maintenance-free thermal energy harvesting, maintenance-free LiPo-battery
Display	LED for status feedback, red
Enclosure	PC
Colour	pure white, aluminium
Operating range temperature	0..+50 °C
Protection (IP)	IP40, according to EN 60529
Connection	USB micro (power supply)
Mounting	screw mounting M30x1,5

### Notes

to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz)  
operating noise <35 dB(A), nominal stroke 3,8 mm, automatically adjusting, regulation time 0,24 mm/s, pulling load >100 N  
the Micro-USB connection allows charging of the internal battery directly at the socket using an USB power supply

## SAB05

Battery-powered wireless EasySens® valve actuator for individual room temperature control. The SAB05 is compatible with the STC-MSG server (for stand-alone solutions) or EasySens® gateways to integrate into BUS networks. Parameterisation can be done through airConfig software. The SAB05 is completely wireless and powered by 3x AA batteries. Adapters are available for numerous valve manufacturers.

### Technical Data

Measured values	temperature
Configuration	airConfig
Sensor	integrated digital temperature transmitter
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz

## SRE-Repeater

The SRE-Repeater is used for repeating radio telegrams between EnOcean transmitters and receivers/gateways. The repeater is typically used when transmission range problems occur between transmitter and receiver in an existing installation (e.g. due to walls being pulled in, furniture/cabinets being moved). Level 1, Level 2 and Smart Repeating (rule-based filters) can be set using the free airConfig software. Ideal for installation in suspended ceilings.

Technical Data	
Configuration	airConfig
Radio technology	EnOcean (IEC 14543-3-10) 868 MHz, 902 MHz
Power supply	flex. 15..240 V =/~
Power consumption	typ. 1 VA (15..240 V =/~)
Enclosure	PA6.6, with quick lock screws
Colour	pure white, transparent cover PC
Operating range temperature	-20..+60 °C
Protection (IP)	IP65, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup>
Delivery content	incl. external receiving/transmitting antenna (2,5 m) with magnetic base
Notes	to use the free software airConfig (download) a USB stick, which is able to send and receive EnOcean telegrams, is necessary. The EnOcean USB stick (incl. license) is included in airScan (item No. 566704 for 868 MHz) magnetic antenna plate for the external antenna recommended to improve radio coverage (see accessories)

## SRE-Repeater UP

The SRE-Repeater UP is especially designed for flush-mounting and used for repeating radio telegrams between EnOcean transmitters and receivers/gateways. The repeater is typically used when transmission range problems occur between transmitter and receiver in an existing installation (e.g. due to walls being pulled in, furniture/cabinets being moved). Level 1, Level 2 and Smart Repeating (rule-based filters) can be set using the free airConfig software.

# LoRaWAN®

# Bluetooth®

LoRaWAN® is a radio technology that is capable of transmitting data over a long distance and even from remote and hard-to-reach locations in an energy-efficient, cost-effective and secure manner. Due to the low energy consumption, the batteries of the sensors are extremely durable and can last for several years.

Bluetooth® solutions gain more and more importance for modern lighting controls. Thanks to the wireless and batteryless switches of Thermokon 2,4 GHz-BLE lighting systems can be controlled easily. The switches are ideal for switching and dimming of lights and for the call of lighting scenes.

**AGS55+ LRW**

Outdoor temperature sensor with external stainless steel probe (fast response) for measuring temperature in outdoor areas, cold rooms, greenhouses, production plants and warehouses. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

Technical Data	
Measured values	temperature
Radio technology	LoRaWAN® (868MHz)
Configuration	USEapp, uConfig, jumper, LoRaWAN® Downlink
Output signal temperature	scaling analogue output: -20..+80 °C (default setting) selectable from 4 temperature ranges -50..+50   -20..+80   -15..+35   -10..+120   0..+50   0..+100   0..+160   0..+250 °C, optionally configurable
Power supply	15..35 V = SELV, 19..29 V ~ SELV
Power consumption	max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Sensor probe, Ø=6 mm, stainless steel V2A (1.4305)
Enclosure	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white
Operating range temperature	-35..+70 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm, removable plug-in terminal, max. 2,5 mm²
Delivery content	incl. mounting base enclosure USE-M pure white incl. mounting set (screws and accessories)

## FTA54+ LRW

Outdoor sensor for measuring relative humidity and temperature in HVAC applications, greenhouses, industrial halls and in meteorology. The accuracy of the humidity sensor is 2%. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

## WSA LRW

Weatherproof humidity and temperature sensor for outdoor applications. The radiation shield protects the sensors from rain, hail and radiated heat. The curved shape of the plates ensure that air can move across the sensors to keep radiated temperature from rooftops and other surrounding surfaces away and guarantee proper measurement. Typical applications are meteorology, greenhouses and industrial environments. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces.

Technical Data	
Measured values	temperature, relative humidity
Radio technology	LoRaWAN® (868MHz)
Configuration	USEapp, uConfig, jumper, LoRaWAN® Downlink

## LA+ LRW

Air quality sensor for measuring CO<sub>2</sub>, mixed gas (VOC), optionally temperature and humidity outdoors and in areas requiring high IP protection class (e.g. underground stations, tunnels, exhibition halls, cold chains and greenhouses as well as in production halls and warehouses). In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway.

## Li65+ LRW

Outdoor sensor for measuring light, temperature, humidity and atmospheric pressure in outdoor areas, greenhouses, warehouses or industrial halls. The device has an integrated ambient light sensor with a precise optical filter adapted to the spectral sensitivity of human eyes. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway.

## AKF10+ LRW

Duct sensor for measuring air temperature and other gaseous media (e.g. in ventilation and air conditioning systems). Combined with a thermowell pocket, it can be used as an immersion temperature sensor as well. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway.

Technical Data	
Measured values	temperature
Radio technology	LoRaWAN® (868MHz)
Configuration	USEapp, uConfig, jumper, LoRaWAN® Downlink
Output signal temperature	scaling analogue output: -20..+80 °C (default setting) selectable from 4 temperature ranges -50..+50   -20..+80   -15..+35   -10..+120   0..+50   0..+100   0..+160   0..+250 °C, optionally configurable
Power supply	15..35 V = SELV, 19..29 V ~ SELV
Power consumption	max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Sensor probe, Ø=6 mm, stainless steel V4A (1.4571) suitable for usage in aggressive media
Installation length	50 mm, 100 mm, 150 mm, 200 mm, 250 mm, 300 mm, 450 mm
Enclosure	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white
Operating range temperature	-50..+160 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm, removable plug-in terminal, max. 2,5 mm²
Mounting	when used as duct sensors: please use mounting flange MF6DS flexible (+90..+120 °C) or MF6 (brass, +120..+260 °C) for use as immersion sensors please use immersion pocket THVADS / THMSDS
Delivery content	incl. mounting flange MF6DS flexible incl. mounting set (screws and accessories)
Notes	external antenna available on request

**MWF+ LRW**

Duct sensor for measuring the average temperature in air ducts. The sensor measures the mean temperature value throughout the entire length. A spring at the connection head reduces vibrations. Mounting angles are included in the delivery content. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway.

## FTK+ LRW

Duct sensor for measuring relative humidity and temperature in gaseous media of heating, ventilation and air-conditioning systems as well as clean rooms. The accuracy of the humidity sensor is 2%. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway.

**WK02+ LRW**

Condensation sensor with LoRaWAN® interface as well as LED signal and a relay output to prevent condensation on chilled surfaces. For control and monitoring applications or connection to cooling valves to stop the flow of chilled water flow upon condensation. The 'ext.' model uses a 2m remote sensor for a more flexible installation. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway.

Technical Data	
Measured values	temperature, relative humidity, condensation

## LS02+ LRW

Leakage detector with relay output and two signalling LEDs designed for alarm, control and monitoring applications of containers, false floors, suspended ceilings or rooms for preventing unintended ingress of water. The sensor can be adjusted to different heights so that the response time of the sensor can be adapted to the water level that is to be detected. The type flex detects water or liquid intrusion over the entire length of the sensor rod. Additionally to the LoRaWAN® interface a potential-free switching contact can be used for direct communication with a higher-level control system. Thanks to the compact design of the sensor rod, the sensor can be mounted in a variety of places (floors, ceilings, etc.) to save space. The sophisticated and highly flexible insulation braiding also allows direct mounting on water-bearing pipe systems. The sensor rod can easily be shortened on site. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway.

## **DPA+ LRW**

Differential pressure transmitter for measuring and monitoring overpressure, underpressure, differential pressure and flow volume of air and other non-aggressive gases in fan and filter systems in duct applications. 8 adjustable pressure and flow volume ranges permit use in HVAC applications of clean rooms, process measurement and controls systems. In addition to LoRaWAN®, additional analog voltage outputs are available as interfaces. In radio-shielded mounting locations, an optional external antenna can be used to optimize the radio link between the device and the gateway. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation. 'Dual' versions with 2 independent sensors for up to 2x differential pressures or 2x flow volume in a single enclosure are available. The mounting base (included in the delivery content) can be used to mount the DPA+ on a flat surface or on DIN rail TS35 (35x7,5 mm) in accordance with EN 60715.

Measuring range velocity	0..750.000 m <sup>3</sup> /h, optionally configurable
Power supply	15..35 V = SELV, 19..29 V ~ SELV
Power consumption	max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Enclosure	USE-L, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white
Operating range temperature	-10..+50 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable cable entry M25 with fourfold cable entry for wire with max. $\varnothing=7$ mm, removable plug-in terminal, max. 2,5 mm <sup>2</sup> inputs max. 1,0 mm <sup>2</sup> pressure connection male $\varnothing=5,0$ mm / $\varnothing=6,3$ mm connection tube: PVC, soft
Mounting	surface-mounted flat on base using screws, prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
Delivery content	incl. mounting base enclosure USE-L pure white incl. mounting set (screws and accessories) incl. pressure connection set and 2 m PVC connection hose
Notes	output protection circuit (reverse polarity protected) external antenna available on request

## Gateway LRW Indoor Femto

Compact LoRaWAN® indoor gateway with external antenna. The connection to an external network server is made via an Ethernet interface. The gateway can be configured via a web interface.

Technical Data	
Radio technology	LoRaWAN® (868MHz)
Configuration	web interface
Network technology	TCP/IP
Power supply	external power supply (USB mini), 5 V =, 2 A
Display	4 LEDs showing status of the device
Colour	pure white
Operating range temperature	-10..+55 °C
Connection	USB mini (power supply) RJ45 socket (8P8C) 10/100 MBit/s Ethernet
Delivery content	incl. external power supply

Gateway LoRaWAN® -> IP					
Item description	Item No.	On stock	Group	€	
Gateway LRW Indoor Femto	794633	⊖	ES1	252,00	

## Gateway LRW Outdoor LORIX One

Professional and compact LoRaWAN® outdoor gateway with external antenna. Thanks to the passive PoE connection, the gateway requires only one line for power supply and connection to an external network server. The configuration is done intuitively via an integrated web interface. Various mounting options are available, e.g. for wall or pole mounting.

### Technical Data

<b>Radio technology</b>	LoRaWAN® (868MHz)
<b>Configuration</b>	web interface
<b>Network technology</b>	TCP/IP
<b>Power supply</b>	24 V =, passive PoE
<b>Power consumption</b>	typ. 3 W (24 V =)
<b>Colour</b>	light grey
<b>Operating range temperature</b>	-30..+55 °C
<b>Protection (IP)</b>	IP65, according to EN 60529
<b>Connection</b>	RJ45 socket (8P8C) 10/100 MBit/s Ethernet
<b>Mounting</b>	mounting at the wall or at a pole
<b>Delivery content</b>	incl. external power supply, incl. passive PoE splitter

## Radio Switches BLE Mini

Energy-harvesting wireless switch for changing the status of lights and blinds. The BLE technology allows flexible attachment to glass and plasterboard walls using adhesive pads or screws.

4-channel blinds, pure white brilliant

2-channel light, aluminium

2-channel blinds, anthracite

Technical Data	
Operating functions	light ON/OFF/DIM, blind UP/DOWN/SET
Operating elements	<b>2-channel:</b> 1 switch <b>4-channel:</b> 2 switches
Configuration	NFC-based / DMC
Radio technology	Bluetooth® Low Energy (BLE), Beacon
Power supply	maintenance-free electrodynamic energy generator
Enclosure	PC
Colour	pure white brilliant, aluminium painted, anthracite
Operating range temperature	-25..+65 °C
Switch ranges	Thermokon mini
Mounting	surface-mounted flat on base using adhesive foil or screws
Notes	configuration interface NFC forum type 2 tag (ISO/IEC 14443 parts 2 and 3) Data Matrix Code (DMC) on the back of the unit for commissioning

# Room Climate Control

Our room control units and room sensors enable the measured value acquisition and/or integrated operation of HVAC, lighting and shading in individual room control. Due to the sophisticated appearance and a variety of design options, the devices are particularly suitable for design-oriented facilities.

## Room Operating Units

JOY HC	Temperature, rel. humidity	146

FSR01	Rel. humidity	252
-------	---------------	-----

## JOY HC

Room thermostat in high-quality design for individual temperature control, e.g. in hotel rooms or offices. A glass surface with intuitive touch control buttons and display combine design, feel and functionality in an outstanding way. The internal controller of the JOY calculates control values for heating/cooling applications, which are provided via analog or digital outputs (depending on type). The possible integration of various external sensors (e.g. window contacts, change-over, condensation sensors, etc.) allows temperature control tailored to the application. The device can be mounted in a standard flush-mounted box.

Technical Data	
Measured values	temperature, relative humidity
Operating functions	setpoint adjustment temperature, standby/presence detection
Configuration	uConfig, BUS
Input	1x input for NTC10k or floating contact <b>A02DO:</b> 1x input for potential contact (230 V ~) 1x input for floating contact <b>3AO:</b> 2x input for floating contact
Network technology	RS485 Modbus, RS485 BACnet (MS/TP)
Output signal temperature	0..+50 °C
Measuring range humidity	0..100% rH non-condensing
Power supply	<b>A02DO:</b> 85..260 V ~   <b>3AO:</b> 24 V = (±10%) SELV, 24 V ~ (±10%) SELV
Power consumption	typ. 2,5 W (24 V =), max. 3 VA (260 V ~)
Display	LCD 60x44 mm, 240x160 px, backlight cold white
Enclosure	PC, cover glass
Colour	pure white, black
Operating range temperature	0..50 °C
Protection (IP)	IP30, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> , inputs max. 1,0 mm <sup>2</sup>
Mounting	in standard EU box (Ø=60 mm, depth min. 45 mm)

Outputs	A02DO (230 V)	3AO (24 V)
Heating/Cooling (Relay)	2	–
Heating/Cooling (0..10 V)	–	2
6-Way-Valve (0..10 V)	1	1*
Inputs	A02DO (230 V)	3AO (24 V)
Universal (configurable)	3 / BUS: 2	3 / BUS: 2

\* Instead of 2x 0..10 V (heating/cooling)

**NEW:** With additional, customizable touch buttons (see page 12)

## thanos EVO

The high-grade materials and sophisticated design of the thanos EVO make it an outstanding room unit for high-end residential or commercial buildings. With its 4.8" touchscreen and up to 4 integrated sensors (temperature, relative humidity, CO2 and VOC), users can individually adjust multiple HVAC and lighting/blinds features. 2D room graphics make operations even more intuitive. External sensors and inputs enhance the multi-functionality of the thanos EVO.

## NOVOS Touch

Covering the 4.8" touchscreen below a real glass surface, the NOVOS Touch is the flagship model of the NOVOS family. With a maximum of up to 4 integrated sensors (temperature, relative humidity, CO2 and VOC) and the possibility of including external values as well, the NOVOS Touch brilliantly combines comfort and energy efficiency. Multiple design options and colors provide individualism for the most diverse applications.

Technical Data	
Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO <sub>2</sub> , VOC
Operating functions	setpoint adjustment temperature, fan stage adjustment, presence detection, light ON/OFF/DIM, blind UP/DOWN/SET, setup scenarios, ECO function, showing measured value and history
Operating elements	touch screen
Configuration	NOVOSapp, uConfig, BUS, ETS (KNX) (depending on type)
Input	<b>BACnet/Modbus:</b> 1x input for floating contact <b>KNX/LON:</b> 1x input for NTC10k or floating contact 2x input for floating contact
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology), KNX (TP1)
Output signal temperature	0..+50 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C -50..+50   0..+50   -20..+80   -15..+35 °C, optionally configurable
Measuring range humidity	0..100% rH non-condensing 0..85 KJ/kg enthalpy 0..50   0..80 g/m <sup>3</sup> absolute humidity 0..+50   -20..+80 °C dew point optionally configurable
Measuring range CO <sub>2</sub>	0..2000 ppm, 0..5000 ppm, optionally configurable
Measuring VOC (mixed gas)	heated metal oxide semiconductor
Power supply	24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>KNX/LON:</b> 24 V = (±10%) SELV
Power consumption	typ. 2,5 W (24 V =), 5 VA (24 V ~) <b>KNX/LON:</b> typ. 2,5 W (24 V =)
Display	TFT 4,8", 1120x480 px, capacitive touch technology
Enclosure	with thermal separation and sensor channel, PC V0
Colour	pure white, aluminium, black design cover NOVOS Touch glass black available
Operating range temperature	0..+50 °C
Protection (IP)	IP30, according to EN 60529
Connection	cable entry via rear opening <b>BACnet/Modbus:</b> tool-free mountable spring clamp, max. 1,5 mm <sup>2</sup> predetermined breaking point (bottom) or drilling mark (top) <b>KNX/LON:</b> removable plug-in terminal, max. Ø=0,8 mm
Mounting	base part can be mounted and wired separately <b>BACnet/Modbus:</b> flush-mounted on standard EU box (Ø=60 mm), surface-mounted flat on base using adhesive foil or screws <b>KNX/LON:</b> flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)
Notes	mixed gas sensors detect gases and vapours which can be oxidised (burnt): Body odours, tobacco smoke, exhalations emitted by materials (furniture, carpets, paint, glue ...)

## NOVOS 7

The NOVOS 7 stands out for its well-known and intuitive user interface using a rotary push button and a 3.5" TFT display. Four favourite buttons allow quick access to frequently used functions such as temperature set point or light control. Blinds and lights can thus be configured accordingly. The NOVOS 7 can be equipped with up to 4 integrated sensors (temperature, relative humidity, CO2 and VOC) and contributes to a comfortable room ambience and energy savings.

Technical Data	
Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO <sub>2</sub> , VOC
Operating functions	setpoint adjustment temperature, fan stage adjustment, presence detection, light ON/OFF/DIM, blind UP/DOWN/SET, setup scenarios, ECO function, showing measured value and history
Operating elements	rotary push button, 4 favourite buttons
Configuration	NOVOSapp, uConfig, BUS, ETS (KNX) (depending on type)

## NOVOS 5 x

The surface-mounted NOVOS 5 x comes in the NOVOS design with an integrated temperature sensor. Possible operating elements are set point potentiometer, status LED with up to 7 selectable colors, rotary switch for fan stage control and a presence button. The connection terminal in the back part allows for pre-wiring. The device is furthermore available with an LCD and integrated traffic light function for indicating the status of measured values. Threshold values and display settings can be individually configured using the Thermokon NOVOSapp.

NOVOS 5 S

NOVOS 5 PSTD

passive / 0..10 V   

### Technical Data

<b>Measured values</b>	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO <sub>2</sub> , VOC
<b>Operating functions</b>	setpoint adjustment temperature, fan stage adjustment, max. 5 stages, presence detection
<b>Operating elements</b>	potentiometer (P), rotary switch (S), button (T) with LED 24 V =
<b>Configuration</b>	NOVOSapp, uConfig, BUS, jumper, ETS (KNX) (depending on type)
<b>Input</b>	<b>BACnet/Modbus:</b> 1x input for floating contact <b>KNX:</b> 1x input for NTC10k or floating contact 2x input for floating contact
<b>Network technology</b>	RS485 Modbus, RS485 BACnet (MS/TP), KNX (TP1)
<b>Output signal temperature</b>	0..+50 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C -50..+50   0..+50   -20..+80   -15..+35 °C
<b>Measuring range humidity</b>	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point, optionally configurable
<b>Measuring range CO<sub>2</sub></b>	0..2000 ppm, 0..5000 ppm, optionally configurable

Technical Data	
Measuring VOC (mixed gas)	heated metal oxide semiconductor
Power supply	15..35 V = SELV, 19..29 V ~ SELV   <b>KNX:</b> 24 V = (±10%) SELV
Power consumption	typ. 0,4 W (24 V =), 0,8 VA (24 V ~)   <b>KNX:</b> typ. 0,4 W (24 V =)
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	PC V0
Colour	pure white, aluminium, black design cover pure white, alu or black available
Operating range temperature	-35..+70 °C
Protection (IP)	IP30, according to EN 60529
Connection	cable entry via rear opening <b>passive/TRV/BACnet/Modbus:</b> tool-free mountable spring clamp, max. 1,5 mm <sup>2</sup> predetermined breaking point (bottom) or drilling mark (top) <b>KNX:</b> removable plug-in terminal, max. Ø=0,8 mm
Mounting	base part can be mounted and wired separately <b>passive/TRV/BACnet/Modbus:</b> flush-mounted on standard EU box (Ø=60 mm), surface-mounted flat on base using adhesive foil or screws <b>KNX:</b> flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)

### Labelling fan stages (FSx)

## NOVOS 3 x

The surface-mounted NOVOS 3 x comes in the NOVOS design with an integrated temperature sensor. Possible operating elements are set point potentiometer, status LED with up to 7 selectable colors and a presence button. It furthermore provides passive outputs to superior control systems. The separate back part with its connection terminals allows pre-wiring. Threshold values and display settings can be individually configured using the Thermokon NOVOSapp.

## NOVOS 3 INC

Room operating unit in the Thermokon NOVOS 3 enclosure with integrated temperature sensor. The unit is operated via a push-and-rotary switch and, depending on the version, has an additional button for presence detection or for adjusting fan stages. Coloured LEDs provide feedback on the currently set setpoint status (heating/cooling) or the respective fan stage. The connection terminal in the lower part of the enclosure allows wiring in advance. The threshold values can be individually configured via the Thermokon NOVOSapp.

## WRF07 x

An optically appealing flush-mounted room unit in the design of various switch frame manufacturers. Available in different colors and with different labeling options. Possible operating elements are potentiometers, LEDs, buttons and rocker switches. An integrated temperature sensor is optional. The removable terminal allows for pre-wiring.

## WRF06 LCD

The flush-mounted room operating unit with set point adjustment, fan stage control and occupancy button can be used for an individual temperature control in living spaces as well as hotel and office rooms. With 4 push buttons and an integrated LCD for visualizing temperature, fan stage and occupancy, the WRF06 LCD VV can also control proportional valves directly besides the models to integrate into a Modbus RS485 or LON network. Removable terminals allow for pre-wiring.

## WRF06 x

A visually appealing flush-mounted room operating unit in the design of various switch frame manufacturers. Available in different colors and with different labeling options. Possible operating elements are rotary switches (fan stage adjustment), LEDs (optical status feedback), buttons (presence) and buttons for operating other peripheral devices. A temperature sensor can be added. The removable terminal allows for pre-wiring. It can be connected to Modbus RS485 and LON networks.

### Technical Data

Measured values	temperature
Operating functions	fan stage adjustment, presence detection, status feedback via LED
Operating elements	rotary switch (S), button (T)
Network technology	RS485 Modbus, LON FT (free topology)
Power supply	24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV
Power consumption	typ. 0,9 W (24 V =), 1 VA (24 V ~)
Display	LED for status feedback
Enclosure	central disc in design of the manufacturer (varies depending on switch range)
Operating range temperature	-35..+70 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> , pluggable
Switch ranges	Berker, Busch-Jaeger, Feller, Gira, Jung, Merten
Mounting	flush-mounted in standard EU box ( $\varnothing=60$ mm, depth min. 45 mm)
Delivery content	incl. frame

## WRF06 INC

The flush-mounted room operating unit with an interface for RS485 Modbus or KNX is used for set point adjustment. An outstanding feature is the possibility to overwrite the status via Modbus RS485. It furthermore includes a push button for triggering an ECO mode to save energy. The central knob is used as a rotary push button. The set point can be changed as required by turning the button accordingly. The device status is visualized by LEDs i.e. heating/cooling.

## WRF04 x RR

The surface-mounted room controller (with optional display) provides a comfortable and individual temperature control in living spaces, hotel and office rooms. Available operating elements are set point potentiometers, rotary switches for fan stage selection, buttons for occupancy and LEDs for status feedback. Depending on the type, proportional 0..10 V or 2-point valves can be controlled for heating and cooling. The terminal in the back part allows for pre-wiring.

### Technical Data

Measured values	temperature
Operating functions	setpoint adjustment temperature, fan stage adjustment (max. 5 stages), presence detection, status feedback via LED
Operating elements	potentiometer (P), rotary switch (S), button (T)
Configuration	BUS, DIP switches
Input	2x input for floating contact
Network technology	RS485 Modbus
Power supply	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
Power consumption	typ. 0,4 W (24 V =), 0,6 VA (24 V ~)
Display	LCD 29x12 mm, monochrome LED for status feedback
Enclosure	PC
Colour	pure white
Operating range temperature	-35..+70 °C
Protection (IP)	IP30, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> cable entry via rear opening, predetermined breaking point (bottom und top)
Mounting	flush-mounted on standard EU box (Ø=60 mm), surface-mounted flat on base using screws or with frame for surface mounting (see accessories) base part can be mounted and wired separately

Outputs	AO2V	DO2R	DO2T	OVR	OVT
0..10 V	2	–	–	1	1
Relay	–	2	–	1	–
Triac	–	–	2	–	1
Inputs	AO2V	DO2R	DO2T	OVR	OVT

## LCR Touch

Room operating unit with an integrated temperature sensor (rH sensor optional) and touch surface for visualization of the measured values and room control. It provides connection to an RS485 Modbus network and additional three inputs. The LCR Touch forms the basis for a pleasant indoor climate and well-being. Typical applications are schools, office buildings, hotels or cinemas. The intuitive operation offers all relevant HVAC functions for an intelligent and energy-saving room automation.

Technical Data	
Measured values	temperature, relative humidity, VOC
Operating functions	setpoint adjustment 0..+50 °C, fan stage adjustment, light ON/OFF/DIM, blind UP/DOWN, ECO function, status displays
Operating elements	5 touch buttons
Input	1x input for change-over sensor NTC10k 2x input digital for floating contact 1x ESI for window contact, dew point 1x OCC for presence detection, key card switch
Network technology	RS485 Modbus
Measuring range humidity	0..100% rH non-condensing
Power supply	24 V = (±20%) SELV, 24 V ~ (±20%) SELV
Power consumption	typ. 0,3 W (24 V =), 5 VA (24 V ~)
Display	LCD 64x41 mm, backlight white
Enclosure	ABS
Colour	pure white, frame silver
Operating range temperature	-10..+50 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> , cable entry via rear opening
Mounting	flush-mounted in standard EU box (Ø=60 mm)

## LCA

The flat surface-mounted bi-metallic room thermostat LCA with night-time lowering (ECO function) is designed for heating or cooling in 2-pipe systems in residential, industrial and commercial buildings. The set point can be selected through a large rotary knob. It is suitable for infrared heaters and other thermostat-controlled heating systems.

The flat surface-mounted bimetallic room controller LCA-D is designed for heating in 2-pipe systems in residential, industrial and commercial buildings. The set point can be adjusted through a large rotary knob. The operating mode is indicated by an LED.

## JOY Fancoil

Fancoil thermostat in high-quality design for individual single-room temperature- and fan control. A glass surface with intuitive touch control buttons and display combine design, feel and functionality in an outstanding way. The internal controller of the JOY calculates control values for fans and heating/cooling applications, which are provided via analog or digital outputs (depending on type). The possible integration of various external sensors (e.g. window contacts, change-over, condensation sensors, etc.) allows temperature and fan control tailored to the application. The device can be mounted in a standard flush-mounted box.

Outputs	5DO (230 V)	EC AO2DO (230 V)	EC 3AO (24 V)
Fan (Relay)	3	–	–
EC Fan (0..10 V)	–	1	1
Heating/Cooling (Relay)	2	2	–

## LCF02 Touch

Modern, touch-operated fan coil room thermostat designed for individual control of room temperature. It is tailored to be compatible with 2-pipe and 4-pipe fan coil units and modulating valves (PWM and 0..10 V). Furthermore, LCF02 Touch provides two configurable digital inputs for e.g. occupancy, window contacts, dew-point contact or change-over. Additionally, it is equipped with an input for external (remote) temperature sensors and an RS485 Modbus interface for overwriting controls parameters. With its flush-mounted design, the LCF02 Touch combines digital technology with a large touch screen (LCD), which makes up for an intuitive operation of the fan coil thermostat. It further provides an integrated scheduler with 7 days and 4 time periods.

Technical Data	
Measured values	temperature
Operating functions	setpoint adjustment temperature, fan stage adjustment, status displays
Operating elements	touch screen

Power supply	90..265 V ~
Power consumption	max. 0,9 W
Display	LCD 36x49 mm, backlight white
Enclosure	ABS, scratch-resistant acrylic glass
Colour	pure white
Operating range temperature	-10..+50 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> , cable entry via rear opening
Mounting	flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)

Change-over sensor NTC10k (model and price on request)

## NOVOS 5

Active room sensor in the NOVOS 5 enclosure for measurement of temperature, humidity (relative and absolute humidity, enthalpy, dew point), CO<sub>2</sub> and mixed gas (VOC) depending on the variant. The maintenance-free sensor contributes to a pleasant room climate and well-being. Typical applications include schools, office buildings, hotels or cinemas. The NOVOS 5 uses an LCD with color-changing backlight for displaying the measured values and exceeding threshold values. Different parameters like the display settings can be individually configured via Thermo-kon NOVOSapp. Optionally, operating elements for controlling HVAC systems can be added (see product NOVOS 5 x in the chapter 'Room Operating Units').

0..10 V / 4..20 mA   

Technical Data	
Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO <sub>2</sub> , VOC
Configuration	NOVOSapp, uConfig, BUS, ETS (KNX) (depending on type)
Input	<b>BACnet/Modbus:</b> 1x input for floating contact <b>KNX:</b> 1x input for NTC10k or floating contact 2x input for floating contact
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), KNX (TP1)
Output signal temperature	0..+50 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C -50..+50   0..+50   -20..+80   -15..+35 °C, optionally configurable
Measuring range humidity	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point, optionally configurable
Measuring range CO <sub>2</sub>	0..2000 ppm, 0..5000 ppm, optionally configurable
Measuring VOC (mixed gas)	heated metal oxide semiconductor
Power supply	15..35 V = SELV, 19..29 V ~ SELV <b>KNX:</b> 24 V = (±10%) SELV
Power consumption	typ. 0,4 W (24 V =), 0,8 VA (24 V ~), max. 0,5 W (24 V =) <b>KNX:</b> typ. 0,4 W (24 V =)
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	PC V0
Colour	pure white, aluminium, black design cover alu or black available
Operating range temperature	0..+50 °C
Protection (IP)	IP30, according to EN 60529
Connection	cable entry via rear opening tool-free mountable spring clamp, max. 1,5 mm <sup>2</sup> predetermined breaking point (bottom) or drilling mark (top) <b>KNX:</b> removable plug-in terminal, max. Ø=0,8 mm

Technical Data	
<b>Mounting</b>	flush-mounted on standard EU box (Ø=60 mm), surface-mounted flat on base using adhesive foil or screws base part can be mounted and wired separately <b>KNX:</b> flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)
<b>Notes</b>	mixed gas sensors detect gases and vapours which can be oxidised (burnt): Body odours, tobacco smoke, exhalations emitted by materials (furniture, carpets, paint, glue ...)

## NOVOS 3

Room sensor in the NOVOS 3 enclosure for measurement of temperature (also available with passive temperature output), humidity (relative and absolute humidity, enthalpy, dew point), CO<sub>2</sub> and mixed gas (VOC) depending on the variant. The maintenance-free sensor contributes to a pleasant room climate and well-being. Typical applications include schools, office buildings, hotels or cinemas. Different parameters can be individually configured via Thermokon NOVOSapp or uConfig. Optionally, operating elements for controlling HVAC systems can be added (see product NOVOS 3 x in the chapter 'Room Operating Units').

passive / 0..10 V / 4..20 mA   

Technical Data	
Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO <sub>2</sub> , VOC
Configuration	NOVOSapp, uConfig, BUS, jumper, ETS (KNX) (depending on type)
Input	<b>BACnet/Modbus:</b> 1x input for floating contact <b>KNX:</b> 1x input for NTC10k or floating contact 2x input for floating contact
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), KNX (TP1)
Output signal temperature	0..+50 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C -50..+50   0..+50   -20..+80   -15..+35 °C, optionally configurable
Measuring range humidity	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point, optionally configurable
Measuring range CO <sub>2</sub>	0..2000 ppm, 0..5000 ppm, optionally configurable
Measuring VOC (mixed gas)	heated metal oxide semiconductor
Power supply	15..35 V = SELV, 19..29 V ~ SELV <b>KNX:</b> 24 V = (±10%) SELV, supply via BUS: 29 V = SELV
Power consumption	typ. 0,4 W (24 V =), max. 0,5 W (24 V =), 0,8 VA (24 V ~) <b>KNX:</b> typ. 0,4 W (24 V =)
Display	RGB LED, with traffic light function, threshold values configurable optionally configurable via app or uConfig
Enclosure	PC V0
Colour	pure white, aluminium, black design cover alu or black available
Operating range temperature	0..50 °C
Protection (IP)	IP20
Connection	cable entry via rear opening tool-free mountable spring clamp, max. 1,5 mm <sup>2</sup> predetermined breaking point (bottom) or drilling mark (top) <b>KNX:</b> removable plug-in terminal, max. Ø=0,8 mm

Technical Data	
<b>Mounting</b>	flush-mounted on standard EU box (Ø=60 mm), surface-mounted flat on base using adhesive foil or screws base part can be mounted and wired separately <b>KNX:</b> flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)
<b>Notes</b>	mixed gas sensors detect gases and vapours which can be oxidised (burnt): Body odours, tobacco smoke, exhalations emitted by materials (furniture, carpets, paint, glue ...)

## NOVOS 7 move

The portable stand-alone solution of NOVOS 7 move simplifies the monitoring of indoor air quality and is able to initiate necessary measures improving the air quality. The practical desk display and the connected power supply unit make it possible to use the NOVOS 7 for CO2 measurement as a “plug & monitor” solution. The intelligent traffic light function uses a TFT display and an acoustic signal to indicate when it is time to take appropriate action. For example, the yellow or red background indicates, that the CO2 concentration in the ambient air is too high and the room should be ventilated.

### Technical Data

<b>Measured values</b>	temperature, relative humidity, CO2
<b>Operating elements</b>	4 favourite buttons
<b>Configuration</b>	NOVOSapp, uConfig
<b>Measuring range humidity</b>	0..100% rH non-condensing
<b>Measuring range CO2</b>	0..5000 ppm, optionally configurable
<b>Display</b>	TFT 3,5", 320x480 px, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
<b>Operating range temperature</b>	0..+50 °C
<b>Protection (IP)</b>	IP30, according to EN 60529
<b>Delivery content</b>	incl. stand and power supply unit

## NOVOS 5 move

The portable stand-alone solution of NOVOS 5 move simplifies the monitoring of indoor air quality and is able to initiate necessary measures improving the air quality. The practical desk display and the connected power supply unit make it possible to use the NOVOS 5 for CO2 measurement as a “plug & monitor” solution. The intelligent traffic light function uses an LCD to indicate when it is time to take appropriate action. For example, the yellow and red light of the LCD indicate, that the CO2 concentration in the ambient air is too high and the room should be ventilated.

### Technical Data

<b>Measured values</b>	temperature, CO2
<b>Configuration</b>	NOVOSapp, uConfig
<b>Measuring range CO2</b>	0..5000 ppm, optionally configurable
<b>Display</b>	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
<b>Operating range temperature</b>	0..+50 °C
<b>Protection (IP)</b>	IP30, according to EN 60529
<b>Delivery content</b>	incl. stand and power supply unit

## NOVOS 3 IR

Surface-mounted room sensor for measuring the effective radiation in living rooms and offices. Designed for connection to control and display systems. For pre-wiring at the installation site, the back part with the connection terminals can be removed from the upper part of the housing.

Technical Data	
Measured values	radiation temperature
Material in touch with media	hemispherical ball, Ø=37 mm, aluminium, black
Enclosure	PC V0
Colour	pure white, aluminium, black
Operating range temperature	-35..+70 °C
Protection (IP)	IP20, according to EN 60529
Connection	tool-free mountable spring clamp, max. 1,5 mm <sup>2</sup> cable entry via rear opening predetermined breaking point (bottom) or drilling mark (top)
Connection cable	2-wire
Mounting	flush-mounted on standard EU box (Ø=60 mm), surface-mounted flat on base using adhesive foil or screws base part can be mounted and wired separately

Room sensor radiation temperature passive

## WRF06

Flush-mounted room sensor for temperature, humidity and air quality measurement in living rooms, offices etc. Designed for connection to controller and display systems. Due to the visual appearance and the matching design frames from various switch range manufacturers, the device is particularly suitable for design-oriented facilities. It can be mounted separately in a single frame or in a multiple frame. Optionally, it is possible to add operating elements for controlling HVAC systems from the device. Stainless steel versions are available on request.

WRF06 pure white,  
frame Gira E2 pure white matt

FTW06 / WRF06 CO2/VOC pure white,  
frame Gira E2 pure white matt

WRF06 CO2/VOC TLF pure white,  
frame Gira E2 pure white matt

passive / 0..10 V   

Technical Data	
Measured values	temperature, relative humidity, CO2, VOC
Configuration	Software/Plug-In for configuration, BUS, jumper, DIP switches (depending on type)
Input	<b>A02V:</b> 2x input digital for floating switch contact <b>DI4:</b> 4x input digital for floating switch contact
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	0..+50 °C, scaling analogue output
Measuring range humidity	0..100% rH non-condensing
Measuring range CO2	0..2000 ppm
Measuring VOC (mixed gas)	heated metal oxide semiconductor, self-calibration
Power supply	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>FTW06 BUS:</b> 15..35 V = SELV, 19..29 V ~ SELV
Power consumption	<b>WRF06 TRV3:</b> typ. 0,4 W (24 V =), 0,8 VA (24 V ~) <b>WRF06 BUS:</b> typ. 0,9 W (24 V =), 1 VA (24 V ~) <b>WRF06 CO2/VOC:</b> max. 1,6 W (24 V =), 3,9 VA (24 V ~) <b>FTW06 VV:</b> typ. 0,3 W (24 V =), 0,5 VA (24 V ~) <b>FTW06 Modbus:</b> max. 1,6 W (24 V =), 3,9 VA (24 V ~)
Display	3 LEDs for displaying air quality (traffic light function – TLF)
Enclosure	PC, central disc in design of the manufacturer (varies depending on switch range)
Colour	white, pure white brilliant, pure white matt, aluminium, Jung aluminium
Operating range temperature	-35..+70 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> , pluggable
Switch ranges	Berker, Busch-Jaeger, Feller, Gira, Jung, Merten, Peha (please specify the desired frame when ordering)
Mounting	flush-mounted in standard EU box (Ø=60 mm, depth min. 45 mm)

## FTB+

Wall-mounted sensor for measuring relative humidity and temperature in a high quality and inconspicuous stainless steel design. For plastering into flush-mounted boxes or installations in hollow walls. Especially designed for museums and exhibitions, where measuring accuracy and almost invisible sensors have to be installed due to architectural design. The precise measurements provided to a BMS system contribute to a comfortable room climate and prevent mold formation.

0..10 V / 4..20 mA   **LON**

### Technical Data

<b>Measured values</b>	temperature, relative humidity, absolute humidity, enthalpy, dew point
<b>Configuration</b>	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
<b>Network technology</b>	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
<b>Output signal temperature</b>	scaling analogue output: -20..+80 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C adjustable at the transducer, optionally configurable
<b>Measuring range humidity</b>	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point adjustable at the transducer, optionally configurable
<b>Power supply</b>	<b>VV:</b> 15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>AA:</b> 15..24 V = (±10%) SELV <b>LCD/BUS:</b> 15..35 V = SELV, 19..29 V ~ SELV
<b>Power consumption</b>	<b>VV:</b> typ. 0,4 W (24 V =), 0,8 VA (24 V ~) <b>AA:</b> max. 1 W (24 V =) <b>LCD/BUS:</b> max. 2,5 W (24 V =), 4,3 VA (24 V ~)
<b>Material in touch with media</b>	Sensor head: Ø=13 mm, end of sensor Ø=7 mm, stainless steel V2A (1.4305)
<b>Display</b>	LCD 29x35 mm, RGB backlight
<b>Enclosure</b>	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
<b>Colour</b>	pure white, transparent cover
<b>Operating range temperature</b>	-40..+120 °C
<b>Protection (IP)</b>	enclosure IP65, according to EN 60529

## RDF-IR

Ceiling flush-mounted sensor for surface temperature measurement in rooms, office spaces and other workplaces. Using the infrared measuring principle, an averaged temperature over the circular detection range (optical detection range  $80 \pm 5^\circ$ ) is calculated. If two IR sensors are used, the mean, minimum or maximum value of both temperature signals can be provided in addition to the individually measured temperatures of each sensor (configurable via Thermokon USEapp).

RDF-IR

RDF-IR Dual

0..10 V / 4..20 mA   

Technical Data	
Measured values	radiation temperature
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	0..+50 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C, adjustable at the transducer
Power supply	15..35 V = SELV, 19..29 V ~ SELV
Power consumption	typ. 0,6 W (24 V =), 1,2 VA (24 V ~)
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white
Operating range temperature	-20..+70 °C
Protection (IP)	IP30, according to EN 60529
Connection	removable cable entry flextherm M20 for wire $\varnothing=4,5..9$ mm removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> , 2x RJ45 socket <b>BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. $\varnothing=7$ mm
Connection cable	patch cable, RJ45 plug <b>Dual:</b> 2x patch cable, RJ45 plug
Delivery content	incl. mounting base enclosure USE-M pure white

## RPF100+

Pendulum sensor for temperature measurement in large, high rooms and spaces like open space offices, arcades, production plants. Especially designed for control and display systems.

0..10 V / 4..20 mA   

Technical Data	
Measured values	temperature
Configuration	USEapp
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	scaling analogue output: selectable from 4 temperature ranges -50..+50   -20..+80   -15..+35   -10..+120   0..+50   0..+100   0..+160   0..+250 °C adjustable at the transducer <b>TRV/TRA:</b> 0..+160 °C (default setting) <b>BUS:</b> -20..+80 °C (default setting)
Power supply	<b>TRV:</b> 15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>TRA:</b> 15..24 V = (±10%) SELV <b>LCD/BUS:</b> 15..35 V = SELV 19..29 V ~ SELV
Power consumption	<b>TRV:</b> typ. 0,4 W (24 V =) 0,8 VA (24 V ~) <b>TRA:</b> typ. 0,5 W (24 V =) <b>LCD/BUS:</b> typ. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Sensor probe: Ø=15 mm, stainless steel V2A (1.4305), length 100 mm, hex pressed (IP65)
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	<b>TRV/TRA:</b> USE-S, impact- and shock-resistant enclosure with quick-release cover, PC <b>LCD/BUS:</b> USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white
Operating range temperature	-35..+70 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> <b>TRV/TRA:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm

## Technical Data

<b>Connection cable</b>	PVC, 0,25 mm <sup>2</sup> , white
	incl. mounting set (screws and accessories)
<b>Delivery content</b>	<b>TRV/TRA:</b> incl. mounting base enclosure USE-S pure white <b>LCD/BUS:</b> incl. mounting base enclosure USE-M pure white

## FTP+

Room pendulum sensor for sectional measurement of relative humidity and temperature in large and high spaces (e.g. exhibition halls, churches and similar applications). Alternatively, the output can also be set to measure absolute humidity, enthalpy or dew point rather than relative humidity. The design ensures optimal installation and precise measurements. The accuracy of the humidity sensor is 2%.

0..10 V / 4..20 mA   

Technical Data	
Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	-20..+80 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C adjustable at the transducer, optionally configurable
Measuring range humidity	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point adjustable at the transducer, optionally configurable
Power supply	<b>VV:</b> 15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>AA:</b> 15..24 V = (±10%) SELV <b>LCD/BUS:</b> 15..35 V = SELV, 19..29 V ~ SELV
Power consumption	<b>VV:</b> typ. 0,4 W (24 V =), 0,8 VA (24 V ~) <b>AA:</b> typ. 1 W (24 V =) <b>LCD/BUS:</b> max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Pipe: Ø=20 mm, PA6, black, length 210 mm, with filter stainless steel wire mesh
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white, transparent cover
Operating range temperature	-20..+70 °C
Protection (IP)	IP20, according to EN 60529

Technical Data	
<b>Connection</b>	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> <b>VV/AA:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm

## LP+

Room pendulum sensor for measuring CO2 in large rooms (exhibition halls, factories, museums etc.). The LP+ comes with an analogue 0..10 V output for connecting to a BMS or monitoring system.

0..10 V   

Technical Data	
Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO2
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Measuring range humidity	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point, optionally configurable
Measuring range CO2	0..2000 ppm, 0..5000 ppm, optionally configurable
Power supply	15..35 V = SELV, 19..29 V ~ SELV
Power consumption	max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Sensor head, black, length 126 mm
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white, transparent cover
Operating range temperature	0..+50 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> <b>VV:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>LCD/BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm

## MDS

Ceiling-mounted multi-sensor for detection of light and motion in rooms and office spaces. Energy-efficiency can be optimized through connecting the MDS to an automated constant light control and temperature reduction in unoccupied rooms. The flat design makes up for an inconspicuous installation in e.g. suspended ceilings. For mounting on concrete ceilings, a surface-mounted frame is available.

Technical Data	
Measured values	temperature, luminosity, motion
Configuration	potentiometer
Output switch contact	1x contact NO, load max. 1 A for 24 V =/~, floating with follow-up time 1 second..30 minutes, selectable at the device
Output signal temperature	0..+50 °C
Measuring range light	0..1000 lux (10 bit)
Detection range	cone-shaped, detection range, angle 105°, 444 detection zones - with an installation height of 2,7 m circular detection range will have a r=7 m, max. range >5 m
Power supply	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
Power consumption	typ. 1,5 W (24 V =), 4 VA (24 V ~)
Enclosure	ABS
Colour	pure white
Operating range temperature	0..+50 °C
Protection (IP)	IP20, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> , pluggable
Mounting	ceiling flush mount or with enclosure for surface mounting

Ceiling flush mount sensor luminosity/motion active

Enclosure for surface mounting MDS pure white	448512	AS1	53,30

## RDI

Ceiling-mounted sensor for motion detection in rooms. The small design (d=30mm) permits an inconspicuous installation in suspended ceilings. Available with 3 detection ranges (standard, small range, spot). The RDI can be used e.g. for an occupancy-based switching of lights or temperature reduction if unoccupied, which in return increases energy-efficiency.

RDI Standard

RDI Small Range

RDI Spot

### Technical Data

<b>Measured values</b>	motion
<b>Output switch contact</b>	1x contact NO, load max. 1 A for 24 V =/~, floating with follow-up time 8 seconds  <b>Standard:</b> detection range, angle 110°/93° (H/V) - with an installation height of 2,5 m range detection will be 7,1x5,3 m, max. range 10 m  <b>Small Range:</b> detection range, angle 100°/82° (H/V) - with an installation height of 2,5 m range detection will be 6x4,3 m, max. range 5 m  <b>Spot:</b> detection range, angle 38°/22° (H/V) - with an installation height of 2,5 m range detection will be 1,7x1 m, max. range 5 m
<b>Detection range</b>	
<b>Power supply</b>	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
<b>Power consumption</b>	typ. 0,5 W (24 V =), 1,1 VA (24 V ~)
<b>Enclosure</b>	ABS
<b>Operating range temperature</b>	-20..+50 °C

## LDF+

Ceiling-mounted sensor used for the measurement of brightness or ambient light levels. Depending on the prism (straight or diagonal), light levels can be detected reliably and selectively in living rooms, offices and work spaces. The sensor is adapted to the spectral sensitivity of human eyes and contributes to a demand-based efficient control of light and sunblinds/shading systems. The remote sensor can be connected to the enclosure with a conventional RJ45 cable, allowing for an easy installation even in hardly accessible locations. If two sensors are used, the average, minimum or maximal value of both brightness signals can be provided in addition to the independent measurements of each sensor (configurable via Thermokon USEapp).

## WRF06I

Flush-mounted sensor for motion detection in rooms. The WRF06I provides a relay contact for efficient light control or temperature reduction in unoccupied rooms. Especially designed for applications in residential and commercial buildings, offices and corridors. Available in different designs and colors of various switch frame manufacturers. The device is mounted in a flush-mounted standard EU box.

WRF06I Gira E2 pure white matt

WRF06I Jung AS 500 alpine white

## WRF04I

Wall-mounted sensor for motion detection in rooms. The WRF04I provides a relay contact for efficient light control or temperature reduction in unoccupied rooms. Especially designed for application in residential and commercial buildings, offices and corridors. The sensor can be directly mounted on the wall, in a flush-mounted standard EU box or a surface-mounted frame (see ‚Accessories‘).

Technical Data	
Measured values	motion
Output switch contact	1x contact NO, load max. 1 A for 24 V =/~, floating with follow-up time 8 seconds
Detection range	cone-shaped, detection range, angle 110°/93°, 80 detection zones - at a distance of 2,8 m the detection area will be about 7x5 m, max. range 10 m
Power supply	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
Power consumption	max. 0,5 W (24 V =), 1,1 VA (24 V ~)
Enclosure	PC
Colour	pure white
Operating range temperature	-20..+50 °C
Protection (IP)	IP30, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> , cable entry via rear opening, predetermined breaking point (bottom und top)
Mounting	flush-mounted on standard EU box (Ø=60 mm)
	surface-mounted flat on base using screws or with frame for surface mounting (see accessories)
	base part can be mounted and wired separately

# Outdoor sensors

With our outdoor sensors, you always get the optimal solution for your application. Depending on type, the integrated sensor technology measures temperature, humidity, enthalpy, dew point, CO2 and VOC content, brightness or atmospheric air pressure and makes our products incomparably flexible.

## FTA54+

Outdoor sensor for measuring relative humidity and temperature in HVAC applications, greenhouses, industrial halls and in meteorology. The output can also be configured to measure absolute humidity, enthalpy or dew point. The optional features, such as relay outputs for 2-point controllers or 2-stage 2-point controllers and an LCD with traffic light indication enable a wide range of applications. The accuracy of the humidity sensor is 2%. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

FTA54+

FTA54+ LCD

0..10 V / 4..20 mA

## WSA

Weatherproof humidity and temperature sensor for outdoor applications. The radiation shield protects the sensors from rain, hail and radiated heat. The curved shape of the plates ensure that air can move across the sensors to keep radiated temperature from rooftops and other surrounding surfaces away and guarantee proper measurement. Typical applications are meteorology, greenhouses and industrial environments.

0..10 V / 4..20 mA   **LON**

## LA+

Air quality sensor for measuring CO<sub>2</sub>, mixed gas (VOC), optionally temperature and humidity outdoors and in areas requiring high IP protection class (e.g. underground stations, tunnels, exhibition halls, cold chains and greenhouses as well as in production halls and warehouses). For devices with CO<sub>2</sub> and VOC, every output can be configured to be a mixed output (selectable ratio between CO<sub>2</sub> and VOC). Devices with a relay option can be used as 2-point controllers or 2-stage controllers.

LA+

LA+ (Temp)

LA+ LCD (Temp\_rH)

0..10 V / 4..20 mA   

### Technical Data

<b>Measured values</b>	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO <sub>2</sub> , VOC
<b>Configuration</b>	USEapp, uConfig, BUS, jumper, DIP switches (depending on type) CO <sub>2</sub> +VOC: each output can be set to get a variable mix of CO <sub>2</sub> and VOC by configuration via app or uConfig
<b>Network technology</b>	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
<b>Output signal temperature</b>	scaling analogue output: 0..+50 °C (default setting), selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C
<b>Measuring range humidity</b>	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point
<b>Measuring range CO<sub>2</sub></b>	0..2000 ppm, 0..5000 ppm
<b>Measuring VOC (mixed gas)</b>	heated metal oxide semiconductor, self-calibration
<b>Power supply</b>	15..35 V = SELV, 19..29 V ~ SELV A/AA: 15..35 V = SELV
<b>Power consumption</b>	max. 2,5 W (24 V =), 4,3 VA (24 V ~) A/AA: max. 2,5 W (24 V =)
<b>Material in touch with media</b>	<b>Temp:</b> Sensor probe, stainless steel V2A (1.4305) <b>Temp+rH:</b> Pipe, PC, with filter stainless steel wire mesh
<b>Display</b>	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, for example to display the air quality, optionally configurable via app or uConfig
<b>Enclosure</b>	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
<b>Colour</b>	pure white, transparent cover

Technical Data	
Operating range temperature	0..+50 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> , relay max. 1,5 mm <sup>2</sup> <b>V/VV/3xV/A/AA:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>Relay/BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. ## Li65+

Outdoor sensor for measuring light, temperature, humidity and atmospheric pressure in outdoor areas, greenhouses, warehouses or industrial halls. The device has an integrated ambient light sensor with a precise optical filter adapted to the spectral sensitivity of human eyes. Relay outputs for a 2-point controller or a 2-stage 2-point controller allow for a wide range of applications. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

Li65+

Li65+ Temp

Li65+ Temp\_rH

0..10 V / 4..20 mA   

### Technical Data

<b>Measured values</b>	temperature, relative humidity, absolute humidity, enthalpy, dew point, luminosity, atmospheric pressure
<b>Configuration</b>	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
<b>Network technology</b>	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
<b>Output signal temperature</b>	scaling analogue output: -20..+80 °C (default setting) selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C, adjustable at the transducer
<b>Measuring range humidity</b>	0..100% rH non-condensing
<b>Measuring range light</b>	0..1000 lux (default setting) selectable from 6 ranges 0..200 lux   0..1000 lux   0..2 klux   0..10 klux   0..20 klux   0..50 klux
<b>Measuring range atm. pressure</b>	500..1500 hPa
<b>Power supply</b>	15..35 V = SELV, 19..29 V ~ SELV
<b>Power consumption</b>	typ. 0,6 W (24 V =), 1,2 VA (24 V ~)
<b>Enclosure</b>	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
<b>Colour</b>	pure white, translucent cover PC
<b>Operating range temperature</b>	-30..+70 °C
<b>Protection (IP)</b>	IP65, according to EN 60529
<b>Connection</b>	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> , relay max. 1,5 mm <sup>2</sup> <b>V/VV/3xV/4xV/A/AA:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm, <b>Relay/BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm
<b>Delivery content</b>	incl. mounting base enclosure USE-M pure white incl. mounting set (screws and accessories)

# Duct Sensors

Our duct and immersion sensors reliably measure and monitor temperature, humidity content or air quality in ducts or pipes of heating, ventilation and air conditioning systems.

## Duct Sensors Climate / Air Quality

AKF10+	Temperature	272
SFK02+	Temperature	280
SFK02+ FR	Temperature	287
MWF+	Temperature	291
MWF400+	Temperature	294
KFK01	Temperature	297
SFK01	Temperature	300
KFK03	Temperature	302
SFK03	Temperature	307
RG03	Temperature	311
RGS03	Temperature	312
FTK+	Temperature, humidity	313
LK+	CO <sub>2</sub> , VOC, temperature, humidity	317

## Duct Hygrostats

FSK01	Humidity	325

## **AKF10+**

Duct sensor for measuring air temperature and other gaseous media (e.g. in ventilation and air conditioning systems). Combined with a thermowell pocket, it can be used as an immersion temperature sensor as well. Models with a relay output for a 2-point controller or a 2-stage 2-point controller and color-changing LCD allow for a wide range of applications. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

## **SFK02+**

Immersion sensor for temperature measurement of gases and liquids in HVAC applications. The sensor can be optionally screwed directly into a bonded pocket (see accessories). Types SFKH02+ with a 70 mm neck pipe are designed for applications with insulation materials. The measuring insert can be exchanged without disassembling the entire sensor. Models with a relay output for a 2-point controller or a 2-stage 2-point controller and color-changing LCD allow for a wide range of applications. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

SFK02+ relay / BUS

SFK02+ LCD

SFKH02+ relay / BUS

passive / 0..10 V / 4..20 mA   

Technical Data	
Measured values	temperature
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	scaling analogue output: <b>TRV/TRA:</b> 0..+160 °C (default setting) <b>Relay/LCD/BUS:</b> -20..+80 °C (default setting) selectable from 4 temperature ranges -50..+50   -20..+80   -15..+35   -10..+120   0..+50   0..+100   0..+160   0..+250 °C adjustable at the transducer, optionally configurable
Power supply	<b>TRV/Basic:</b> 15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>TRA:</b> 15..24 V = (±10%) SELV <b>Relay/LCD/BUS:</b> 15..35 V = SELV, 19..29 V ~ SELV
Power consumption	<b>TRV:</b> typ. 0,4 W (24 V =), 0,8 VA (24 V ~) <b>TRA:</b> max. 0,5 W (24 V =) <b>Basic:</b> typ. 0,7 W (24 V =), 1,8 VA (24 V ~) <b>Relay/LCD/BUS:</b> max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Sensor probe, Ø=8 mm, stainless steel V4A (1.4571), G1/2" Neck pipe (optionally): stainless steel V2A (1.4305), Ø=12 mm, length 70 mm
Installation length	50 mm, 100 mm, 150 mm, 200 mm, 250 mm, 450 mm
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	<b>passive/TRV/TRA/Basic:</b> USE-S, impact- and shock-resistant enclosure with quick-release cover, PC <b>Relay/LCD/BUS:</b> USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white, transparent cover
Protection (IP)	IP65, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> , relay max. 1,5 mm <sup>2</sup> <b>passive/TRV/TRA/Basic:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>Relay/BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm
Delivery content	incl. mounting set (screws and accessories)

## SFK02+ FR

Immersion sensor with  $\varnothing=4$  mm pocket for a fast response and integrated thermowell for temperature measurement of gases and liquids in HVAC applications. Bonded pockets are available as well (see „Accessories“). Models with a relay output for a 2-point controller or a 2-stage 2-point controller and color-changing LCD allow for a wide range of applications. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

SFK02+ FR

SFK02+ FR relay / BUS

SFK02+ FR LCD

passive / 0..10 V / 4..20 mA   

### Technical Data

Measured values	temperature
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	scaling analogue output: <b>TRV/TRA:</b> 0..+160 °C (default setting) <b>Relay/LCD/BUS:</b> -20..+80 °C (default setting) selectable from 4 temperature ranges -50..+50   -20..+80   -15..+35   -10..+120   0..+50   0..+100   0..+160   0..+250 °C adjustable at the transducer, optionally configurable
Power supply	<b>TRV:</b> 15..24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV <b>TRA:</b> 15..24 V = ( $\pm 10\%$ ) SELV, <b>Relay/LCD/BUS:</b> 15..35 V = SELV, 19..29 V ~ SELV
Power consumption	<b>TRV:</b> typ. 0,4 W (24 V =), 0,8 VA (24 V ~) <b>TRA:</b> max. 0,5 W (24 V =) <b>Relay/LCD/BUS:</b> max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Sensor probe 50 mm: $\varnothing=4$ mm Sensor probe 100/200 mm: $\varnothing=6$ mm, end of sensor $\varnothing=4$ mm stainless steel V4A (1.4571), G1/2"
Installation length	50 mm, 100 mm, 200 mm
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	<b>passive/TRV/TRA:</b> USE-S, impact- and shock-resistant enclosure with quick-release cover, PC <b>Relay/LCD/BUS:</b> USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white, transparent cover

Technical Data	
<b>Operating range temperature</b>	-50..+160 °C

## MWF+

Duct sensor for measuring the average temperature in air ducts. The sensor measures the mean temperature value throughout the entire length. A spring at the connection head reduces vibrations. Mounting angles are included in the delivery content. Models with a relay output for a 2-point controller or a 2-stage 2-point controller and color-changing LCD allow for a wide range of applications. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

## KFK01

Passive duct sensor for measuring air temperature and other gaseous media of HVAC applications (e.g. supply and exhaust ducts). The sensor can be mounted by means of a mounting flange. Combined with a thermowell, it can be used as an immersion temperature sensor as well.

Technical Data	
Measured values	temperature
Material in touch with media	Sensor probe, Ø=6 mm, stainless steel V4A (1.4401)
Installation length	50 mm, 100 mm, 150 mm, 200 mm, 250 mm, 300 mm, 450 mm
Enclosure	shape J, aluminium
Operating range temperature	-80..+260 °C
Protection (IP)	IP65, according to EN 60529
Connection	cable entry M16 for wire Ø=8 mm, terminal block, max. 1,5 mm <sup>2</sup>
Mounting	when used as duct sensors: please use mounting flange MF6DS flexible (+90..+120 °C) or MF6 (brass, +120..+260 °C) for use as immersion sensors please use immersion pocket THVADS / THMSDS

## SFK01

Immersion sensor with an integrated thermowell for temperature measurement of liquids in HVAC applications (e.g. water lines or water tanks). The type SFKH01 with a 70 mm neck pipe is designed for applications using insulation materials. Bonded pockets are available as well (see ‚Accessories‘).

Technical Data	
Measured values	temperature
Material in touch with media	Sensor probe: Ø=8 mm, stainless steel V4A (1.4571), SW24, G1/2" Neck pipe (optionally): stainless steel V2A (1.4305), Ø=12 mm, length 70 mm
Installation length	50 mm, 100 mm, 150 mm, 200 mm, 250 mm, 450 mm
Enclosure	shape J, aluminium
Operating range temperature	-80..+260 °C
Protection (IP)	IP65, according to EN 60529
Connection	cable entry M16 for wire Ø=8 mm terminal block, max. 1,5 mm <sup>2</sup>

## KFK03

Passive duct sensor for measuring air temperature and other gaseous media of HVAC applications (e.g. in supply and exhaust ducts). Designed for connection to superior controls systems. The sensor can be mounted by means of a mounting flange. Combined with a thermowell, it can be used as an immersion temperature sensor as well.

passive / 0..10 V / 4..20 mA

Technical Data	
Measured values	temperature
Output signal temperature	scaling analogue output: TRV1/TRA1: -50..+50 °C TRV2/TRA2: -10..+120 °C TRV3/TRA3: 0..+50 °C TRV4/TRA4: 0..+160 °C TRV5/TRA5: 0..+250 °C
Power supply	TRV: 15..35 V = SELV, 15..26 V ~ SELV TRA: 15..24 V = (±10%) SELV
Power consumption	TRV: max. 1 W (24 V =), 0,8 VA (24 V ~) TRA: max. 0,5 W (24 V =)
Material in touch with media	Sensor probe, Ø=8 mm, stainless steel V4A (1.4571)
Installation length	100 mm, 150 mm, 200 mm, 250 mm
Enclosure	shape B, aluminium
Operating range temperature	-80..+260 °C
Protection (IP)	IP66, according to EN 60529
Connection	cable entry M20 for wire Ø=7 mm, terminal block, max. 1,5 mm <sup>2</sup>
Connection cable	2-wire
Mounting	when used as duct sensors: please use mounting flange MF8 stainless steel for use as immersion sensors please use immersion pocket THVA

### SFK03

Immersion sensor in the enclosure form B with an integrated thermowell for temperature measurement of liquids in HVAC applications (e.g. water lines or water tanks). Designed for connection to superior control systems. The type SFKH03 with a 70 mm neck pipe is designed for applications using insulation materials.

passive / 0..10 V / 4..20 mA

#### Technical Data

Measured values	temperature
Output signal temperature	scaling analogue output: TRV1/TRA1: -50..+50 °C TRV2/TRA2: -10..+120 °C TRV3/TRA3: 0..+50 °C TRV4/TRA4: 0..+160 °C TRV5/TRA5: 0..+300 °C
Power supply	TRV: 15..24 V = (±10%) SELV, 15..26 V ~ SELV TRA: 15..35 V = SELV
Power consumption	TRV: typ. 1 W (24 V =), 1,4 VA (24 V ~) TRA: typ. 0,5 W (24 V =)
Material in touch with media	Sensor probe: Ø=8 mm, stainless steel V4A (1.4571), SW24, G1/2" Neck pipe (optionally): stainless steel V2A (1.4305), Ø=15 mm, length 70 mm
Installation length	100 mm, 150 mm, 200 mm, 250 mm
Enclosure	shape B, aluminium
Operating range temperature	-80..+260 °C
Protection (IP)	IP66, according to EN 60529
Connection	cable entry M20 for wire Ø=7 mm terminal block, max. 1,5 mm <sup>2</sup>

## RG03

Duct/Immersion sensor for high temperature measurement in gaseous and liquid media. Designed for connecting to control and display systems. Especially designed for measuring higher temperatures (e.g. in supply and exhaust ducts).

passive / 0..10 V / 4..20 mA

### Technical Data

Measured values	temperature
Output signal temperature	TRV6/TRA6: 0..+400 °C TRV7/TRA7: 0..+600 °C
Power supply	TRV: 15..35 V = SELV, 15..26 V ~ SELV TRA: 15..24 V = (±10%) SELV
Power consumption	TRV: typ. 1 W (24 V =), 0,8 VA (24 V ~) TRA: typ. 0,5 W (24 V =)
Material in touch with media	Sensor probe, Ø=11 mm, stainless steel V4A (1.4571)
Installation length	236 mm, 486 mm
Enclosure	shape B, aluminium
Operating range temperature	0..+600 °C
Protection (IP)	IP66, according to EN 60529
Connection	cable entry M20 for wire Ø=8 mm, terminal block, max. 1,5 mm²
Delivery content	incl. mounting flange

## FTK+

Duct sensor for measuring relative and absolute humidity, enthalpy, dew point and temperature in gaseous media of heating, ventilation and air-conditioning systems as well as clean rooms. The optional features, such as relay outputs for 2-point controllers or 2-stage 2-point controllers and color-changing LCD allow for a wide range of applications. The accuracy of the humidity sensor is 2%. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

FTK+

FTK+ relay / BUS

FTK+ LCD

0..10 V / 4..20 mA   

### Technical Data

<b>Measured values</b>	temperature, relative humidity, absolute humidity, enthalpy, dew point
<b>Configuration</b>	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
<b>Network technology</b>	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
<b>Output signal temperature</b>	scaling analogue output: -20..+80 °C (default setting) selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C adjustable at the transducer <b>Relay/LCD/BUS:</b> optionally configurable
<b>Measuring range humidity</b>	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point, optionally configurable
<b>Power supply</b>	<b>VV/Basic:</b> 15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>AA:</b> 15..24 V = (±10%) SELV <b>Relay/LCD/BUS:</b> 15..35 V = SELV, 19..29 V ~ SELV
<b>Power consumption</b>	<b>VV:</b> typ. 0,4 W (24 V =), 0,8 VA (24 V ~) <b>AA:</b> max. 1 W (24 V =) <b>Basic:</b> max. 0,7 W (24 V =), 1,8 VA (24 V ~) <b>Relay/LCD/BUS:</b> max. 2,5 W (24 V =), 4,3 VA (24 V ~)
<b>Material in touch with media</b>	Pipe: PA6 with filter stainless steel wire mesh, black, Ø=19,5 mm
<b>Installation length</b>	140 mm, 270 mm, 400 mm
<b>Display</b>	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
<b>Enclosure</b>	<b>VV/AA/Basic:</b> USE-S, impact- and shock-resistant enclosure with quick-release cover, PC <b>Relay/LCD/BUS:</b> USE-M, impact- and shock-resistant enclosure with quick-release cover, PC

Technical Data	
Colour	pure white, transparent cover
Operating range temperature	-20..+70 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> , relay max. 1,5 mm <sup>2</sup> <b>VV/AA/Basic:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>Relay/BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm
Delivery content	incl. mounting flange incl. mounting set (screws and accessories)
Notes	air speed max. 12 m/s

Filter stainless steel, wire mesh FTK+ / FTA54+ / FTP+ (spare part)		231169	AS1	9,75
Mounting flange MF20		612562	AS1	13,10
Weather protection for FTK+, WSA (replacement)		625241	AS1	75,30

## LK+

The maintenance-free and multi-functional duct air quality sensor measures CO<sub>2</sub>, mixed gas (VOC), temperature and humidity (relative, absolute, enthalpy, dew point). Optional features, such as a relay output for a 2-point controller or a 2-stage 2-point controller, LCD and traffic light function allow for a wide range of applications. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

LK+

LK+ LCD

0..10 V / 4..20 mA   

### Technical Data

Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point, CO <sub>2</sub> , VOC
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type) <b>CO<sub>2</sub>+VOC:</b> each output can be set to get a variable mix of CO <sub>2</sub> and VOC by configuration via app or uConfig
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	scaling analogue output: 0..+50 °C (default setting) selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C
Measuring range humidity	0..100% rH non-condensing, 0..85 KJ/kg enthalpy, 0..50   0..80 g/m <sup>3</sup> absolute humidity, 0..+50   -20..+80 °C dew point, optionally configurable
Measuring range CO <sub>2</sub>	0..2000 ppm, 0..5000 ppm, optionally configurable
Measuring VOC (mixed gas)	heated metal oxide semiconductor
Power supply	15..35 V = SELV, 19..29 V ~ SELV
Power consumption	max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	with filter stainless steel wire mesh <b>types V:</b> without filter Pipe: Ø=19,5 mm, black
Installation length	180 mm <b>models without temperature:</b> 150 mm <b>types 100:</b> 100 mm <b>models 100 without temperature:</b> 70 mm

Technical Data	
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Operating range temperature	0..+50 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> , relay max. 1,5 mm <sup>2</sup> <b>VV/AA:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>Relay/BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm
Delivery content	incl. mounting flange incl. mounting set (screws and accessories)
Notes	mixed gas sensors detect gases and vapours which can be oxidised (burnt): Body odours, tobacco smoke, exhalations emitted by materials (furniture, carpets, paint, glue ...) air speed 0,3..12 m/s

## FSK01

Hygrostat for ON/OFF control of ventilation and air conditioning, humidification and dehumidification equipment. Designed for applications, where humidity has to be closely controlled or monitored, e.g. in office spaces, data centers, food stores, cooling rooms for fruits and vegetables, greenhouses, the textile industry, paper and printing industries, the film industry, hospitals and similar applications.

### Technical Data

Measured values	relative humidity
Operating functions	threshold adjustment
Operating elements	rotary button
Measuring range humidity	30..100% rH non-condensing
Material in touch with media	Pipe: Ø=16 mm, stainless steel, length 220 mm
Installation length	220 mm
Enclosure	ABS
Operating range temperature	0..+60 °C
Protection (IP)	IP54, according to EN 60529
Connection	cable entry M20 for wire Ø=8 mm, terminal block, max. 1,5 mm <sup>2</sup>

### Notes

air speed max. 8 m/s  
 with stainless steel filter, wire mesh (see accessories) max. 15 m/s  
 with filter PTFE (see accessories) >15 m/s

# Cable Sensors Contact Sensors

Durable materials and state-of-the-art pressing and rolling processes guarantee the quality and durability of our cable and contact sensors. This makes them the first choice in building, heating, ventilation and air conditioning technology.

## Contact Sensors

VFG54+	Temperature	328
AF25	Temperature	331
AF25+	Temperature	333

## Cable Sensors

TF25	Temperature	335
TF25+	Temperature	339
TF14	Temperature	343
TF14+	Temperature	346

## Surface Sensors

PR25	Temperature	348
PR25+	Temperature	350
OF14	Temperature	352
OF14+	Temperature	353

## VFG54+

Contact sensor for temperature measurement (cold or hot water) on pipes and other curved surfaces. Spring-loaded brass contact sensor for a fast response. Models with a relay output for a 2-point controller or a 2-stage 2-point controller and color-changing LCD allow for a wide range of applications. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation.

## AF25

Contact sensor with connection cable and brass strap for surface temperature measurement (cold or hot water) on pipes and other curved surfaces.

### Technical Data

<b>Measured values</b>	temperature
<b>Material in touch with media</b>	Sensor probe: Ø=6 mm, brass, with contact tongue 16-point pressed (IP65)
<b>Installation length</b>	35 mm
<b>Operating range temperature</b>	-50..+135 °C
<b>Protection (IP)</b>	IP65, according to EN 60529
<b>Connection cable</b>	0,25 mm <sup>2</sup> , <b>T100</b> : PVC, <b>T135</b> : silicone,
<b>Length connection wire</b>	1 m

### Contact Sensor -35..+100 °C passive

## AF25+

Contact sensor in the USE enclosure with connection cable and brass lug for surface temperature measurement (cold or hot water) on pipes and other curved surfaces.

0..10 V / 4..20 mA   LON

Technical Data	
Measured values	temperature
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	scaling analogue output: 0..+160 °C (default setting) selectable from 4 temperature ranges -50..+50   -20..+80   -15..+35   -10..+120   0..+50   0..+100   0..+160   0..+250 °C adjustable at the transducer, optionally configurable
Power supply	<b>TRV:</b> 15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV <b>TRA:</b> 15..24 V = (±10%) SELV <b>Relay/LCD/BUS:</b> 15..35 V = SELV, 19..29 V ~ SELV
Power consumption	<b>TRV:</b> typ. 0,4 W (24 V =), 0,8 VA (24 V ~) <b>TRA:</b> typ. 0,5 W (24 V =) <b>Relay/LCD/BUS:</b> max. 2,5 W (24 V =), 4,3 VA (24 V ~)
Material in touch with media	Sensor probe, Ø=6 mm, brass, with contact tongue 16-point pressed (IP65)
Installation length	35 mm
Display	LCD 29x35 mm, RGB backlight, with traffic light function, threshold values configurable, optionally configurable via app or uConfig
Enclosure	<b>TRV/TRA:</b> USE-S, impact- and shock-resistant enclosure with quick-release cover, PC <b>Relay/LCD/BUS:</b> USE-M, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white, transparent cover
Operating range temperature	-50..+135 °C
Protection (IP)	IP65, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup> BUS max. 1,5 mm <sup>2</sup> , relay max. 1,5 mm <sup>2</sup> <b>TRV/TRA:</b> removable cable entry flextherm M20 for wire Ø=4,5..9 mm <b>Relay/BUS:</b> removable cable entry M25 with fourfold cable entry for wire with max. Ø=7 mm
Connection cable	PVC, 0,25 mm <sup>2</sup>
Length connection wire	1 m
Delivery content	incl. mounting base enclosure USE-S pure white incl. mounting set (screws and accessories)

<b>Contact sensor temperature active 0..10 (0..5) V, 4..20 mA</b>

## TF25

Cable sensor for temperature measurement in HVAC or refrigeration applications. In combination with a thermowell, the TF25 can also be used for temperature measurement in liquid media. Depending on the application requirements, different PVC, silicone, high-temperature silicone and fibreglass cables are available.

Technical Data	
Measured values	temperature
Material in touch with media	Sensor probe, $\varnothing=6$ mm, stainless steel V4A (1.4571) 16-point pressed (IP65)
Installation length	50 mm, 100 mm, 150 mm
Enclosure	USE-S, impact- and shock-resistant enclosure with quick-release cover, PC
Colour	pure white
Operating range temperature	-50..+400 °C
Connection	removable cable entry flextherm M20 for wire $\varnothing=4,5..9$ mm, removable plug-in terminal, max. 2,5 mm <sup>2</sup>
Connection cable	0,25 mm <sup>2</sup> , <b>T400</b> : 0,22 mm <sup>2</sup> <b>T100</b> : PVC, <b>T125/T150/T180</b> : silicone, <b>T250</b> : HT-silicone, <b>T400</b> : GI/GI-V2A cable ends with conductor sleeves as standard
Length connection wire	1 m
Notes	PE connection wire available (please request)

## TF25+

Cable sensor for temperature measurement in HVAC or refrigeration applications. In combination with a thermowell, the TF25 can also be used for temperature measurement in liquid media. Depending on the application requirements, different PVC, silicone, high-temperature silicone and fibreglass cables are available.

TF25+

TF25+ BUS

0..10 V / 4..20 mA   

Technical Data	
Measured values	temperature
Configuration	USEapp, uConfig, BUS, jumper, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	scaling analogue output: 0..+160 °C (default setting) selectable from 4 temperature ranges -50..+50   -20..+80   -15..+35   -10..+120   0..+50   0..+100   0..+160   0..+250 °C adjustable at the transducer, optionally configurable

### TF14+

Cable sensor for temperature measurement in HVAC applications. Depending on the application requirements, different PVC, silicone and PTFE cables are available. A hinged cover and tool-free wiring as well as removable cable entries ensure a quick and easy installation. The TF14 with its 4 mm diameter pocket is well suited for fast response applications.

0..10 V / 4..20 mA

# Frost Protection Condensation Leakage

Our frost protection thermostats, condensation monitors and leakage sensors protect sensitive electronics from leakage damages, which often result in expensive system failures or even dropouts.

## Condensation Monitors

WK02+	Condensation, temperature, humidity	356
WK01+	Condensation	358

## Leakage Detectors

LS02+ (ext./flex)	Leakage	360
-------------------	---------	-----

## Frost Protection Thermostats

TFR	Temperature	362
TFRe	Temperature	363

## WK02+

Condensation sensor with an LED signal and a relay output to prevent condensation on chilled surfaces. For control and monitoring applications or connection to cooling valves to stop the flow of chilled water flow upon condensation. The ,ext.' model uses a 2m remote sensor for a more flexible installation.

Technical Data	
Measured values	temperature, relative humidity, absolute humidity, enthalpy, dew point, condensation
Configuration	USEapp, BUS, DIP switches (depending on type)
Network technology	RS485 Modbus, RS485 BACnet (MS/TP), LON FT (free topology)
Output signal temperature	scaling analogue output: 0..+50 °C (default setting) selectable from 4 temperature ranges -40..+60   0..+50   -20..+80   -15..+35 °C optionally configurable

## LS02+

Leakage detector with relay output and two signalling LEDs designed for alarm, control and monitoring applications of containers, false floors, suspended ceilings or rooms for preventing unintended ingress of water. The sensor can be adjusted to different heights so that the response time of the sensor can be adapted to the water level that is to be detected. The type flex detects water or liquid intrusion over the entire length of the sensor rod. A potential-free switching contact is used for communication with the higher-level control system. Thanks to the compact design of the sensor rod, the sensor can be mounted in a variety of places (floors, ceilings, etc.) to save space. The sophisticated and highly flexible insulation braiding also allows direct mounting on water-bearing pipe systems. The sensor rod can easily be shortened on site.

## TFR

Frost protection thermostat for downstream temperature monitoring of e.g. heat exchangers in ventilation and air-conditioning systems. The product offers a small differential gap and a high reproducibility. Resetting can be done automatically or manually (type -R). The frost protection thermostat can be used to perform the following functions: stop fan, close outside air dampers, open heating valve 100%, start heating pump, switch-off chiller (condenser) and de-/humidifier, trigger visual and/or audible frost alarm.

Technical Data	
Measured values	temperature
Operating elements	rotary knob, reset button
Material in touch with media	Capillary pipe, copper with tube filling R507 sensor operating length approx. 600 mm contact material Ag/Ni (90%/10%), gold plated (3 µm)
Installation length	1800 mm, 3000 mm, 6000 mm, 12000 mm
Enclosure	PA6 GK30
Operating range temperature	-35..+70 °C
Protection (IP)	IP65, according to EN 60529
Connection	cable entry M16 for wire Ø=8 mm, terminal block, max. 2,5 mm <sup>2</sup>
Delivery content	incl. installation set
Notes	mounting flange MF2 useable from installation length 3000 mm

## TFRe

Electronic frost protection thermostat for downstream temperature monitoring of e.g. heat exchangers in ventilation and air-conditioning systems. Integrated P-controller for constant control of a heat exchanger valve within its intended operating range. Safety shutdown of the fan and - if necessary - closing the air inlet flaps to protect the heat exchanger in case set thresholds are exceeded. Temperature measurement optionally with a contact sensor, immersion sensor or cable sensor with up to four selectable sensor characteristic curves. For a quick temperature measurement in the return water pipe of the heat exchanger, a fast-response sensor (e.g. TF14 with KL4VA) should be used.

### Technical Data

Measured values	temperature
Operating elements	2 rotary knobs (Talarm and Xp)
Configuration	DIP switches
Input	1x input sensor PT1000 (default), NTC10K, Ni1000, Ni1000TK5000 1x input for external controller for defining set point 1x input for floating contact
Output signal temperature	0..+100 °C
Power supply	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
Power consumption	max. 2 VA (24 V ~)
Display	LED green – indicator valve OUT, LED red – alarm, LED yellow – fan
Enclosure	ABS
Colour	white
Operating range temperature	-40..+70 °C
Protection (IP)	IP20, according to EN 60529
Connection	removable plug-in terminal, max. 2,5 mm <sup>2</sup>
Mounting	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715

# Pressure and Velocity

Pressure and air flow sensors for cooling and air conditioning must resist extreme conditions. Therefore our products are customized to withstand even the harshest environments.

## Air Pressure Sensors

DPA+	Differential pressure, volume flow	366
PS	Differential pressure	372
AVT	Air flow, temperature	373

## Air Pressure / Liquid Sensors

DLF	Pressure	374
-----	----------	-----

## Liquid Sensors

DPL	Differential pressure	377
-----	-----------------------	-----

## Manometer

MM	Differential pressure	378
DPG	Differential pressure	379
DPGe	Differential pressure	380

## DPA+

Differential pressure transmitter for measuring and monitoring overpressure, underpressure, differential pressure and flow volume of air and other non-aggressive gases in fan and filter systems in duct applications. 8 adjustable pressure and flow volume ranges permit use in HVAC applications of clean rooms, process measurement and controls systems. The optional features, such as relay outputs for 2-point controllers or 2-stage 2-point controllers, an LCD with traffic light indication allow for a wide range of applications. A hinged cover and tool-

free wiring as well as removable cable entries ensure a quick and easy installation. ‚Dual‘ versions with 2 independent sensors for up to 2x differential pressures or 2x flow volume in a single enclosure are available. The mounting base (included in the delivery content) can be used to mount the DPA+ on a flat surface or on DIN rail TS35 (35x7,5 mm) in accordance with EN 60715.

## PS

Adjustable differential pressure switch for air and other non-flammable and non-aggressive gases. Designed for monitoring air filters, fans, damper actuators and other industrial processes. Mounting accessories are included in the delivery content.

Technical Data	
Measured values	differential pressure
Measuring range pressure	<b>PS300:</b> 30..300 Pa <b>PS500:</b> 30..500 Pa <b>PS1500:</b> 100..1500 Pa <b>PS4500:</b> 500..4500 Pa
Enclosure	ABS, membrane silicone
Colour	pure white, translucent cover PC
Operating range temperature	-20..+60 °C
Protection (IP)	IP54, according to EN 60529
Connection	cable entry M16 for wire $\varnothing=8$ mm terminal block, max. 1,5 mm <sup>2</sup> pressure connection male $\varnothing=5,0$ mm / $\varnothing=6,3$ mm connection tube: PVC, soft
Delivery content	incl. fixing screws (2x) incl. pressure connection set and 2 m PVC connection hose

Differential pressure switch

Mounting bracket kit for differential pressure switch 135x74x60 mm	669009	AS1	9,25
T-hose connector for pressure hoses $\varnothing=4$ mm (10 pcs)	668323	AS1	33,00
Adapter 90° angle for pressure hoses $\varnothing=4$ mm	668330	AS1	8,95
Metal duct connector MKS40 ( $\varnothing=4$ mm, L=40 mm)	265138	AS1	4,55
Metal duct connector MKS100 ( $\varnothing=5$ mm, L=100 mm)	302531	AS1	5,35

## AVT

Air velocity transmitter with 3 field-selectable measuring ranges for measuring and monitoring air velocities in ventilation systems in order to control regulation flaps or damper actuators. An integrated LCD and relay contacts for limiting the air volume are available as options.

Technical Data	
Measured values	temperature, Air velocity
Configuration	jumper
Output signal temperature	0..+50 °C
Measuring range velocity	0..2, 0..10, 0..20 m/s, optionally configurable
Power supply	15..24 V = (±10%) SELV, 24 V ~ (±10%) SELV
Power consumption	<b>AVT/AVT LCD:</b> max. 2 W   <b>AVT LCD Relay:</b> max. 2,4 W
Material in touch with media	Sensor probe: stainless steel V2A (1.4305), length 210 mm
Installation length	195 mm
Display	LCD 3.5", 45.7x12.7 mm to show measured value
Enclosure	ABS, cover PC
Colour	light grey
Operating range temperature	0..+50 °C
Protection (IP)	IP54, according to EN 60529
Connection	terminal block, max. 1,5 mm <sup>2</sup> cable entry M16 for wire Ø=8 mm <b>Relay:</b> 2x cable entry M16 for wire Ø=8 mm
Delivery content	incl. mounting flange
Notes	adjustable immersion length using mounting flange 50..180 mm adjustable switching threshold and hysteresis

Air velocity and temperature transmitter			
Item description	Item No.	Group	€
AVT	430005	PR1	161,90
AVT LCD	430036	PR1	207,70
AVT LCD relay	430067	PR1	229,50

## DLF

Pressure transmitter for measuring absolute pressure of liquids, air or non-aggressive gases. Designed for use in refrigeration, hydraulics, production plants and processes. The dense stainless steel membrane makes the sensor suitable for use with refrigerants as well. For a quick & easy connection, a 5 m cable with a pre-installed connector is available (see ‚Accessories‘). The DLF can be optionally equipped with a 4-digit LED display.

DLF

DLF UD-V / DLF UD-A

0..10 V / 4..20 mA

### Technical Data

Measured values	pressure
Measuring range pressure	<b>DLF-1..0:</b> -1..0 bar <b>DLF1:</b> 0..1 bar <b>DLF2,5:</b> 0..2,5 bar <b>DLF4:</b> 0..4 bar <b>DLF6:</b> 0..6 bar <b>DLF10:</b> 0..10 bar <b>DLF16:</b> 0..16 bar <b>DLF25:</b> 0..25 bar

## DPL

Differential pressure transmitter for measuring differential pressure in liquids. Typical areas of application include supply and return liquid flows in HVAC systems and process engineering as well as the monitoring of filters and compressors. For a quick & easy connection, a 5 m cable with pre-installed connector is available (see 'Accessories').

0..10 V / 4..20 mA

### Technical Data

Measured values	differential pressure
Measuring range pressure	0..1 bar, 0..2,5 bar, 0..4 bar, 0..6 bar
Power supply	15..24 V = ( $\pm 10\%$ ) SELV, 24 V ~ ( $\pm 10\%$ ) SELV
Power consumption	typ. 0,37 W (24 V =), max. 0,5 W (24 V =), 0,9 VA (24 V ~)
Material in touch with media	stainless steel, G1/4"
Enclosure	stainless steel V2A (1.4305), lid die-cast aluminium, measuring cell ceramic
Colour	black
Operating range temperature	-20..+80 °C
Protection (IP)	IP54, according to EN 60529
Connection	angle plug DIN 43650, type A

## DPGe

Compact electronic differential pressure manometer for displaying and monitoring differential air pressure in HVAC applications. Easy to retrofit in existing installations as the DPGe uses a AAA battery as a power supply.

Technical Data	
Measured values	differential pressure
Configuration	buttons
Measuring range pressure	0..2500 Pa
Power supply	battery type AAA
Power consumption	max. 60 mW (operating mode), max. 1 mW (standby)
Display	LCD 29x35 mm, RGB backlight
Enclosure	USE-M, impact- and shock-resistant enclosure with quick-release cover, PC UV-resistant
Colour	pure white, transparent cover PC
Operating range temperature	-10..+50 °C
Protection (IP)	IP65, according to EN 60529
Connection	connection tube: PVC, soft
Delivery content	incl. mounting set (screws and accessories) incl. pressure connection set and 2 m PVC connection hose incl. battery type AAA

# Power Thyristors

Power thyristors can more and more be found where ohmic and inductive loads must be controlled (e.g. in industrial furnaces ...) By means of the modular and compact construction and control with a continuous control signal power thyristors become the perfect actuators for industrial power control.

## Power Thyristors

### Single-Phase

TS1 1-phase	Power thyristor
TS3 1-phase	Power thyristor

### Three-Phase

TS1 3-phase	Power thyristor	<b>382</b>
TS3 3-phase	Power thyristor	<b>384</b>
TS2 3-phase	Power thyristor	<b>388</b>
		<b>390</b>

## Phase angle control

The phase angle control can be used for almost any ohmic and inductive consumers and is the most common way to control the power consumption of a consumer. The consumer is connected to the supply network via the power thyristor. The thyristors are controlled in such a way, that the consumer is not supplied with the complete sinusoidal oscillation but only a part (depending on the steering angle), whereas the voltage average value can be adjusted continuously.

## Oscillation control

The oscillation control is used with inert consumers such as heaters. Contrary to the phase angle control, complete sinusoidal waves are switched through to the consumer with the oscillation control. The control of the average voltage value is made by switching through a certain number of oscillations (depending on the switch-on time) within a certain time slot (clock cycle). Thus converter feedback effects to the power supply network in form of harmonic components are avoided.

## TS1 single-phase

The TS1 single-phase power thyristor controller is used to control the load or power of industrial load applications (e.g. fans, pumps, lamps, heating coils, industrial ovens). Its solid and compact design permit seamless installation and a wear-free control with a high degree of efficiency.

Technical Data	
Configuration	DIP switches
Output switch contact	signal contact at 100% U <sub>a</sub> 1x contact NO 3A for 250 V ~ or 24 V =, floating
output for ohmic and inductive loads	<b>2 A:</b> 0,46 kW (230 V ~ / 2 A) <b>4 A:</b> 0,92 kW (230 V ~ / 4 A) <b>6 A:</b> 1,38 kW (230 V ~ / 6 A) <b>8 A:</b> 1,84 kW (230 V ~ / 8 A) <b>10 A:</b> 2,3 kW (230 V ~ / 10 A) <b>12 A:</b> 2,76 kW (230 V ~ / 12 A)
Input	input for potentiometer 2,5..10 kΩ electrical activation via setpoint signal 0..10 V = or 0..20 mA optionally configurable
Power supply	L1, N: 230 V ~ 48..62 Hz, self-synchronizing
Power consumption	<b>2 A:</b> typ. 2,5 W <b>4 A:</b> typ. 4,5 W <b>6 A:</b> typ. 6,5 W <b>8 A:</b> typ. 9 W <b>10 A:</b> typ. 11 W <b>12 A:</b> typ. 13 W
Display	LED – power supply OK, LED – modulation amplitude 100%
Enclosure	PA
Operating range temperature	0..+45 °C
Protection (IP)	IP40, terminal blocks IP23, according to EN 60529
Connection	terminal block, max. 2,5 mm <sup>2</sup>
Mounting	prepared for mounting on DIN rail TS35 (35x7,5 mm) according to EN 60715
Notes	types up to 4 A with cooling plate types 6 A with heat sink types 8 A and higher with heat sink and fan

## Inspection certificate 3.1 according to EN 10204

Depending on the application and the field of use, calibration certificates are becoming increasingly important in modern building automation as well as HVAC. Reasoned by physical characteristics, sensors are exposed to and wear off due to mechanical, chemical or thermal stress. Due to these external influences, the initial technical specifications can vary over the lifespan of a sensor.

Calibration as a measuring process serves to determine and

document the deviation of a sensor at the time of its calibration test compared to a certified reference device. Each device is issued its individual certificate according to DIN EN 10204 with the measured deviations. This document certifies, that the sensor complies with the accuracies defined in the data sheet at the time of manufacture/delivery. An adjustment/offset of the detected deviation is not conducted.

Measured value	Calibration range
Temperature	-20..+150 °C
Relative Humidity	Room sensors: 20..80% rH Outdoor/Duct sensors: 5..95 % rH
Differential Pressure (air)	-100..+7000 Pa

Material test reports		
Item description	Item No.	€
Inspection certificate 3.1 (EN 10204) temperature – 2 values	119030	on request
Inspection certificate 3.1 (EN 10204) humidity – 2 values	665407	on request
Inspection certificate 3.1 (EN 10204) pressure – 2 values	696647	on request
Additional measuring point	–	on request

# Glossary

## OUTPUTS

<b>A, AA, 2A</b>	1 resp. 2 outputs 4..20 mA; output values depending on product
<b>V, VV, 3xV, 4xV or 2V, 3V, 4V</b>	1, 2, 3, 4 outputs 0..10 V; output values depending on product
<b>AS, AAS, VS, VVS</b>	1 resp. 2 active outputs + 1 passive output temperature (S)
<b>TRA</b>	output 4..20 mA, digit for measuring range temperature following
<b>TRV</b>	output 0..10 V, digit for measuring range temperature following
<b>TRA1/TRV1</b>	range -50..+50 °C
<b>TRA2/TRV2</b>	range -10..+120 °C
<b>TRA3/TRV3</b>	range 0..+50 °C
<b>TRA4/TRV4</b>	range 0..+160 °C
<b>TRA5/TRV5</b>	range 0..+250 °C
<b>TRA6/TRV6</b>	range 0..+400 °C
<b>TRA7/TRV7</b>	range 0..+600 °C
<b>TRA8/TRV8</b>	range -15..+35 °C
<b>MultiRange</b>	range adjustable at the device

## SI-PROTECTION

Changes in temperature are causing formation of humidity. Thus, there is a risk that the humidity can permeate in the contact point of the sensor. As a result, the sensor would corrode and oxygenate. Thus, the contact point would become unreliable.

The SI-Protection procedure provides the contact point with epoxy gum and a fluidized bed coating which unites with the insulation material of the wire. Thus, a complete unit is built protecting the sensor against vibrations and humidity.

## DUAL CHANNEL – SELF CALIBRATION

Dual Channel self calibration utilizes an independent 2nd optical beam to compare and reference the measuring beam. Because the 2nd beam is used only once a day it will wear off much less resulting in a negligible error. Contrary to products using the commonly used ABC-Logic™, dual channel sensors can be used for all applications including hospitals, casinos, horticulture and livestock etc, which are in use 24/7.

## COMMUNICATION

<b>EasySens®</b>	Thermokon radio based on EnOcean IEC 14543-3-10
<b>BACnet</b>	RS485 BACnet (MS/TP), communication protocol specifically designed for building automation; BACnet IP, if mentioned in catalogue
<b>KNX</b>	EIB-KNX interface
<b>LON</b>	LON FTX, communication protocol specifically designed for building automation; other standards, if mentioned in catalogue
<b>Modbus</b>	RS485 Modbus RTU
<b>dS</b>	digitalSTROM

## ROOM OPERATING UNITS: OPERATING ELEMENTS

<b>P</b>	potentiometer (setpoint adjustment)
<b>MS</b>	slide switch
<b>S</b>	switch (e.g. for fan stages)
<b>T</b>	button (e.g. for occupancy status)
<b>D</b>	LED
<b>LCD</b>	inclusive display
<b>TLF</b>	traffic light function indicating air quality via LED(s)
<b>AZ</b>	Automatic zero-point calibration

OTHER SWITCH RANGES, COLOURS AND MATERIALS ON REQUEST

# TERMS AND CONDITIONS

## Orders

We will gladly take your order by phone, email or facsimile, using either the product name or item number from the catalogue. Please do not hesitate to contact us for technical support or support with specific applications or sensor technology.

## Delivery Time

We keep stock of a large number of standard sensors, so that we can provide an excellent and quick lead time. Products are often shipped immediately after receipt of order. Delivery times for larger quantities or custom designs are available on request.

## Pricing

All prices are list prices in € and do not include value added tax. Prices are valid from 1<sup>st</sup> January 2022. All previous prices become obsolete.

## Delivery Conditions

Our standard delivery terms are ex-works (EXW) by parcel services or forwarders, excluding costs for insurance.

## Product return

Thermokon stock products can be returned within a period of 6 months after delivery for 2/3 credit of the initial purchase price. Only unused products in original packing will be accepted. Custom manufactured products such as room sensors with control elements, custom engraving, custom varnish or custom printing can not be returned.

**Our general terms & conditions as well as warranty conditions can be sent to you upon request. The entire catalogue is subject to technical and price changes; no responsibility is taken for the accuracy of these information. Illustrations may vary.**

# 5 YEARS WARRANTY ON ALL PRODUCTS!
